In addition to the details required on the reverse, clear information should be given below under the following heads:—

(*a*) If the ordinary surplus is insufficient to meet the charges of the proposed loan, the particular steps which the municipality has taken, or has agreed to take, in order to make good the deficiency.

(*a*) (*i*) Due to the fact that the whole district was washed away by heavy floods in 1936-37 and specially in 1938-39, the business of the district has suffered considerably with the result that the collection of municipal taxes has suffered heavily. With the improvement of collection the ordinary surplus is expected to improve considerably. The municipality will take more stringent measures for realisation of arrear taxes and the deficiency is sure to be made up with improved collection of taxes.

(*ii*) By the imposition of tax on business and trade, the income is likely to improve and the municipality is contemplating a taxation in that direction.

(*b*) The reserve of taxation or other possible means of increase in the revenues of the municipality. The rates at which each of the taxes mentioned in column 12 on the reverse is levied, other than tax on persons, should be stated here.

(*b*) The existing rates are—

House tax at 7½ per cent. on the valuation.

Conservancy rate at 6 per cent. on the valuation.

Water rate at 6½ per cent. on the valuation.

Water rate at 2 per cent. on the valuation (in the rural area).

(*c*) A statement of all outstanding loans specifying, in respect of each loan, the date when taken, the purpose (very briefly), the amount, the annual charges involved, and the amount still payable.

(*c*)—

		Amount.	Annual charges.		
		Rs.	Rs. a	Rs.	
31st March 1925.	Improvement of water-works.	10,000	948 15	4,499	To be paid in full by March 1945.

(*d*) Any explanations in regard to receipts and expenditure to show the true financial position of the municipality when such position is otherwise than the ordinary surplus would indicate.

(*d*) This is the year of revision of general assessment. Owing to the increase of pucca houses in the town, there will be improvement in all the heads of the income of the municipality and the surplus will be considerably increased as soon as the general revision of assessment will be finished. The general revision of assessment will take effect from April 1940.

Every year the number of pucca houses are increasing with the result that the income of the municipality will be enhanced with a corresponding increase in the surplus.

If the roads are improved according to the scheme, contemplated with the obtaining of the loan in question, the annual recurring expenditure on the road repair head will be reduced by at least Rs. 500 to Rs. 1,000. The amount will be set apart for repayment of the loan in question.

The instalments of Rs. 944 for the repayment of the existing loan are being paid regularly and annually and the existing loan will be fully satisfied by the year 1945. So that from that year this amount will be annually available for repayment of the annual instalments on account of this loan.

The Municipal Commissioners may reduce expenditures under all heads to create surplus for the purpose of satisfying the annual instalments for this loan. The annual instalment being only Rs. 2,207, there will be no difficulty for the municipality to find out this sum and make it available for repayment of instalment by small curtailment of expenditure on certain heads or curtailment of the same in one head.

Loans of much heavier amounts have been taken on previous occasions. Heavier instalments have been paid in repayment of these loans without default for the last 28 years. There is no chance of default in the repayment of the instalments for loans as this has been and will always be the first and the most important charge on the Municipal Finance. The items of expenditure in other heads and for other purposes will be shaped after meeting this repayment instalment first.

The Second Schedule.

1. The Original Fund consisted of Rs. 50,000 of 5½ per cent. War Bonds, 1918-21, and Rs. 5,00,000 of 5½ per cent. War Bonds, 1918-28. This underwent the following changes:—

(*a*) In the year 1920, the Rs. 50,000 of 5½ per cent. War Bonds, 1918-21, was converted into Rs. 50,000 of 6 per cent. Bonds, 1930.

(*d*) In the year 1927, a sum representing untouched income for five years was invested in Rs. 40,000 of 4 per cent. Loan, 1960-70, and added to the capital of the fund.

(*e*) In the year 1929, the Rs. 50,000 of 6 per cent. Bonds, 1930, was converted into Rs. 52,800 of 5 per cent. Loan, 1939-44. At the end of 1929, the total fund comprised the following:—

Rs. 2,28,800 of 5 per cent. War Bonds, 1929-47, Rs. 4,03,000 of 4 per cent. Loan, 1960-70, and Rs. 52,800 of 5 per cent. Loan, 1939-44.

(*f*) Out of the said Rs. 4,03,000 of 4 per cent. Loan, 1960-70, a portion, namely, Rs. 37,000, was sold in the year 1930 to meet the cost of land and buildings for constructing a school called the Sussex Trust Model Primary School under the provisions contained in the Orinigal Scheme Special Endowment Rules. This left a balance of Rs. 3,66,000 of the 4 per cent. Loan, 1960-70.

(*g*) In the year 1932, a sum representing untouched income for five years was invested in Rs. 32,000 of 4 per cent. Loan, 1960-70, and added to the Capital of the Fund.

3½ per cent. Loan, 1865—Rs. 25,000.

3. By the Original Scheme of the six objects of the endowment five were to receive respectively of the income arising from five investments of Rs. 1,00,000 each and one from one investment of Rs. 50,000, but, owing to changes in the capital investments, it was not practicable to assign the specified proportions of capital to the respective objects. But the total income was expended (up to 1927) in proportionate shares, namely:—

(*a*) Scholarships for European boys—Two-elevenths.

(*b*) Scholarships for European Girls—Two-elevenths.

Loan, 1960-70, was added to the two-elevenths share of income for object "(*c*) Scholarships for Domiciled Community," and the income from Rs. 19,000 of 4 per cent. Loan, 1960-70, was added to the two-elevenths share of income for object "(*d*) Primary School for Indian Boys". Since the sale of Rs. 37,000

of 4 per cent. Loan, 1960-70, in the year 1930 to provide funds for construction of the primary school for object (*d*) the income of object (*d*) has been reduced proportionately.

8. (*1*) In any of the following cases—

(*a*) where an arbitration agreement provides that the reference shall be to one or more arbitrators, and all the parties do not, after differences have arisen, concur in any of the appointments; or

(*b*) if any appointed arbitrator or umpire neglects or refuses to act, or is incapable of acting, or dies, or is removed, and the arbitration agreement does not show that it was intended that the vacancy should not be supplied, and the parties or the arbitrators, as the case may be, do not supply the vacancy; or

(*c*) where the parties or the arbitrators are required to appoint an umpire and do not appoint him;

any party may serve the other parties or the arbitrators, as the case may be, with a written notice to concur in the appointment or in supplying the vacancy.

(*2*) If the appointment is not made within seven clear days after the service of the said notice, the Court may, on the application of the party who gave the notice and after giving the other parties an opportunity of being heard, appoint an arbitrator or arbitrators or umpire, as the case may be, who shall have like power to act in the reference and to make an award as if he or they had been appointed by consent of all parties.

Power to party to appoint new arbitrator or, in certain cases, a sole arbitrator.

9. Where an arbitration agreement provides that a reference shall be to two arbitrators, one to be appointed by each party, then, unless a different intention is expressed in the agreement,—

(*a*) if either of the appointed arbitrators refuses to act, or is incapable of acting, or dies, or is removed, the party who appointed him may appoint a new arbitrator in his place;

(*b*) if one party fails to appoint an arbitrator, either originally or by way of substitution as aforesaid, for seven clear days after receipt of a notice in writing to make the appointment from the other party, such other party having appointed his arbitrator before giving the notice, the party who has appointed an arbitrator may appoint that arbitrator to act as sole arbitrator in the reference, and his award shall be binding on both parties as if he had been appointed by consent:

Provided that the Court may set aside any appointment as sole arbitrator made under clause (*b*) and either, on sufficient cause being shown, allow further time to the defaulting party to appoint an arbitrator or pass such other order as it thinks fit.

Provisions as to appointment of three or more arbitrators.

10. (*1*) Where an arbitration agreement provides that a reference shall be to three arbitrators, one to be appointed by each party and the third by the two appointed arbitrators, the agreement shall have effect as if it provided for the appointment of an umpire, and not for the appointment of a third arbitrator, by the two arbitrators appointed by the parties.

(*2*) Where an arbitration agreement provides that a reference shall be to three arbitrators to be appointed otherwise than as mentioned in sub-section (*1*), the award of the majority shall prevail.

(*3*) Where an arbitration agreement provides for the appointment of more arbitrators than three, the award of the majority, if any, shall prevail, or if the arbitrators are equally divided in their opinions, the award of the umpire shall prevail.

11. (*1*) The Court may, on the application of any party to a reference, remove an arbitrator or umpire who fails to use all reasonable dispatch in entering on and proceeding with the reference and making an award.

(*2*) The Court may remove an arbitrator or umpire who has misconducted himself or the proceedings.

(*3*) Where an arbitrator or umpire is removed under this section, he shall not be entitled to receive any remuneration in respect of his services.

(*4*) For the purposes of this section the expression "proceeding with the reference" includes in a case where reference to the umpire becomes necessary, giving notice of that fact to the parties and to the umpire.

Power of Court where arbitrator is removed or his appointment revoked.

12. (*1*) Where the Court removes an umpire who has not entered on the reference or one or more arbitrators (not being all the arbitrators), the Court may, on the application of any party to the arbitration agreement, appoint persons to fill the vacancies.

(*2*) Where the appointment of an arbitrator or arbitrators or an umpire is revoked by leave of the Court, or where the Court removes an umpire who has entered on the reference or a sole arbitrator or all the arbitrators, the Court may, on the application of any party to the arbitration agreement, either—

(*a*) appoint a person to act as sole arbitrator in the place of the person or persons displaced, or

(*b*) order that the arbitration agreement shall cease to have effect with respect to the difference referred.

(*3*) A person appointed under this section as an arbitrator or umpire shall have the like power to act in the reference and to make an award as if he had been appointed in accordance with the arbitration agreement.

Powers of arbitrator.

13. The arbitrators or umpire acting under an arbitration agreement shall, unless a different intention is expressed in the agreement, have power to—

(*a*) administer oath to the parties and witnesses appearing;

(*b*) state a special case for the opinion of the Court on any question of law involved, or state the award, wholly or in part, in the form of a special case on such question for the opinion of the Court;

(*c*) correct in an award any clerical mistake or error arising from any accidental slip or omission;

(*d*) administer to any party to the arbitration such interrogatories as may, in the opinion of the arbitrators or umpire, be necessary.

(*2*) The arbitrators or umpire shall, at the request of any party to the arbitration agreement or any person claiming under such party and upon payment of the fees and charges due in respect of the arbitration and award and of the costs and charges of filling the award, cause the award or a signed copy of it, together with any depositions and documents which may have been taken and proved before them, to be filed in Court, and the Court shall thereupon give notice to the parties of the filing of the award.

(3) Where the arbitrators or umpire state a special case under clause (b) of section 13, the Court shall pronounce its opinion thereon and such opinion shall be added to, and shall form part of, the award.

Power of Court to modify award.

15. The Court may by order modify or correct an award -

(a) where it appears that a part of the award is upon a matter not referred to arbitration and such part can be separated from the other part and does not affect the decision on the matter referred; or

(b) where the award is imperfect in form, or contains any obvious error which can be amended without affecting such decision; or

(c) where the award contains a clerical mistake or an error arising from an accidental slip or omission.

Power to remit award.

16. (1) The Court may from time to time remit the award or any matter referred to arbitration to the reconsideration of the arbitrators or umpire upon such terms as it thinks fit—

(a) where the award has left undetermined any of the matters referred to arbitration, or where it determines any matter not referred to arbitration and such matter cannot be separated without affecting the determination of the matters referred; or

(b) where the award is so indefinite as to be incapable of execution; or

(c) where an objection to the legality of the award is apparent upon the face of it.

(2) Where an award is remitted under sub-section (1) the Court shall fix the time within which the arbitrator or umpire shall submit his decision to the Court.

(3) An award remitted under sub-section (1) shall become void on the failure of the arbitrator or umpire to reconsider it and submit his decision within the time fixed.

Judgment in terms of award.

17. Where the Court sees no cause to remit the award or any of the matters referred to arbitration for reconsideration or to set aside the award, the Court shall, after the time for making an application to set aside the award has expired, or such application having been made, after refusing it, proceed to pronounce judgment according to the award, and upon the judgment so pronounced a decree shall follow, and no appeal shall lie from such decree except on the ground that it is in excess of, or not otherwise in accordance with, the award.

Power of Court to pass interim orders.

18. (1) Notwithstanding anything contained in section 17, at any time after the filing of the award, whether notice of the filing has been served or not, upon being satisfied by affidavit or otherwise that a party has taken steps to defeat, delay or obstruct the execution of any decree that may be passed upon the award, or that speedy execution of the award is just and necessary, the Court may pass such interim orders as it deems necessary.

(2) Any person against whom such interim orders have been passed may show cause against such orders, and the Court, after hearing the parties, may pass such further orders as it deems necessary and just.

Power to supersede arbitration when award becomes void or is set side.

19. Where an award has become void under sub-section (3) of section 16 or has been set aside, the Court may by order supersede the reference and shall thereupon order that the arbitration agreement shall cease to have effect with respect to the difference referred.

Jurisdiction.

20. (*1*) Subject to the provisions of this Act, an award may be filed in any Court having jurisdiction in the matter to which the reference relates.

(*2*) Notwithstanding anything contained in any other law for the time being in force and save as otherwise provided in this Act, all questions regarding the validity, effect or existence of an award or an arbitration agreement shall be decided by the Court in which the award under the agreement has been, or may be, filed, and by no other Court.

(*3*) All applications regarding the conduct of arbitration proceedings or otherwise arising out of such proceedings shall be made to the Court where the award has been, or may be, filed, and to no other Court.

(*4*) Notwithstanding anything contained elsewhere in this Act or in any other law for the time being in force, where in any reference any application under this Act has been made in a Court competent to entertain it, that Court alone shall have seisin over the arbitration proceedings and all subsequent applications arising out of that reference and the arbitration proceedings shall be made in that Court and in no other Court.

CHAPTER III.

ARBITRATION WITH INTERVENTION OF A COURT WHERE THERE IS NO SUIT PENDING.

Application to file in Court arbitration agreement.

21. (*1*) Where any persons have entered into an arbitration agreement before the institution of any suit with respect to the subject-matter of the agreement or any part of it, and where a difference has arisen to which the agreement applies, they or any of them, instead of proceeding under Chapter II, may apply to a Court having jurisdiction in the matter to which the agreement relates, that the agreement be filed in Court.

(*2*) The application shall be in writing and shall be numbered and registered as a suit between one or more of the parties interested or claiming to be interested as plaintiff or plaintiffs and the remainder as defendant or defendants, if the application has been presented by all the parties, or if otherwise, between the applicant as plaintiff and the other parties as defendants.

(*3*) On such application being made, the Court shall direct notice thereof to be given to all parties to the agreement other than the applicants, requiring them to show cause within the time specified in the notice why the agreement should not be filed.

(*4*) Where no sufficient cause is shown, the Court shall order the agreement to be filed, and shall make an order of reference to the arbitrator appointed by the parties, whether in the agreement or otherwise or where the parties cannot agree upon an arbitrator, to an arbitrator appointed by the Court.

(*5*) Thereafter the arbitration shall proceed in accordance with, and shall be governed by, the provisions of Chapter II so far as they can be made applicable.

CHAPTER IV.

ARBITRATION IN SUITS.

Parties to suit may apply for order of reference.

22. (*1*) Where in any suit all the parties interested agree in writing that any matter in difference between them in the suit shall be referred to arbitration, they may at any time before judgment is pronounced apply to the Court for an order of reference.

(*2*) Every such application shall be in writing and the arbitration agreement or a copy thereof shall accompany the application.

Appointment of arbitrator.

23. The arbitrator shall be appointed in such manner as may be agreed upon between the parties to the arbitration agreement.

Order of reference.

24. (*1*) The Court shall, by order, refer to the arbitrator the matter in difference which he is required to determine, and shall in the order specify such time as it thinks reasonable for the making of the award.

(*2*) Where a matter is referred to arbitration, the Court shall not, save in the manner and to the extent provided in this Act, deal with such matter in the suit.

Reference to arbitration by some of the parties.

25. Where some only of the parties to a suit apply to have the matters in difference between them referred to arbitration in accordance with, and in the manner provided by, section 22, the Court may, if it thinks fit, so refer such matters to arbitration (provided that the same can be separated from the rest of the subject-matter of the suit) in the manner provided in that section, but the suit shall continue so far as it relates to the parties who have not joined in the said application and to matters not contained in the said reference as if no such application has been made, and an award made in pursuance of such a reference shall be binding only on the parties who have joined in the application.

Provisions applicable to arbitrations under this Chapter.

26. (*1*) The provisions of sections 8, 10, 11 and 12 shall apply to arbitrations under this Chapter:

Provided that the Court may, in any of the circumstances mentioned in those sections, instead of filling up the vacancies or making the appointments, make an order superseding the arbitration and proceed with the suit.

(*2*) The provisions of sections 13 to 19 (both inclusive) shall apply to arbitrations under this Chapter:

Provided that where the Court makes an order superseding the arbitration under section 19, it shall proceed with the suit.

CHAPTER V.

GENERAL.

Application of Chapter.

27. Save as otherwise provided in this Act, the provisions of this Chapter shall apply to all arbitrations.

Power of arbitrators to make an interim award.

28. (*1*) Unless a different intention appears in the arbitration agreement, the arbitrators or umpire may, if they think fit, make an interim award.

(*2*) All references in this Act to an award shall include references to an interim award made under sub-section (*1*).

Power to Court only to enlarge time for making award.

29. (*1*) The Court may, if it thinks fit, whether the time for making the award has expired or not and whether the award has been made or not, enlarge from time to time the time for making the award.

(*2*) Any provision in an arbitration agreement whereby the arbitrators or umpire may enlarge the time for making the award shall be void and of no effect.

Interest on awards.

30. A sum directed to be paid by an award shall, unless the award otherwise directs, bear interest at the rate of six *per centum per annum* from the date of the award.

Grounds for setting aside award.

31. An award shall not be set aside except on one or more of the following grounds, namely:—

(*a*) that an arbitrator or umpire has misconducted himself or the proceedings;

(*b*) that a party has been guilty of fraudulent concealment of any matter which he ought to have disclosed, or has wilfully misled or deceived the arbitrator or umpire;

(*c*) that an award has been made after the issue of an order by the Court superseding the arbitration or after arbitration proceedings have become invalid under section 35; and

(*d*) that an award has been improperly procured or is otherwise invalid.

Bar to suits contesting arbitration agreement or award.

32. Notwithstanding any law for the time being in force, no suit shall lie on any ground whatsoever for a decision upon the existence, effect or validity of an arbitration agreement or award, nor shall any arbitration agreement or award be set aside, amended, modified or in any way affected otherwise than as provided in this Act.

Arbitration agreement or award to be contested by application.

33. Any person desiring to challenge the existence or validity of an arbitration agreement or an award or to have the effect of either determined shall apply to the Court and the Court shall decide the question on affidavits:

Provided that where the Court deems it just and expedient, it may set down the application for hearing on other evidence also, and it may pass such orders for discovery and particulars as it may do in a suit.

Power to stay legal proceedings where there is an arbitration agreement.

34. Where any party to an arbitration agreement or any person claiming under him commences any legal proceedings against any other party to the agreement or any person claiming under him in respect of any matter agreed to be referred, any party to such legal proceedings may, at any time before filing a written statement or taking any other steps in the proceedings, apply to the judicial authority before which the proceedings are pending to stay the proceedings; and if satisfied that there is no sufficient reason why the matter should not be referred in accordance with the arbitration agreement and that the applicant was, at the time when the proceedings were commenced, and still remains, ready and willing to do all things necessary to the proper conduct of the arbitration, such authority may make an order staying the proceedings.

Effect of legal proceedings on arbitration.

35. (*1*) No reference nor award shall be rendered invalid by reason only of the commencement of legal proceedings upon the subject-matter of the reference, but when legal proceedings upon the whole of the subject-matter of the reference have been commenced between all the parties to the reference and a notice thereof has been given to the arbitrators or umpire, all further proceedings in a pending reference shall, on the expiry of the time for making an application under section 34 or on the rejection of such an application, be invalid.

(*2*) In this section the expression "parties to the reference" includes any person claiming under any of the parties and litigating under the same title.

Power of Court where arbitration agreement is ordered not to apply to a particular difference, to order that a provision making an award a condition precedent to an action shall not apply to such difference.

38. Where it is provided (whether in the arbitration agreement or otherwise) that an award under an arbitration agreement shall be a condition precedent to the bringing of an action with respect to any matter to which the agreement applies, the Court, if it orders (whether under this Act or any other law) that the agreement shall cease to have effect as regards any particular difference, may further order that the said provision shall also cease to have effect as regards that difference.

Limitation.

37. (*1*) All the provisions of the Indian Limitation Act, 1908, shall apply to arbitrations as they apply to proceedings in Court. IX of 1908.

(*2*) Notwithstanding any term in an arbitration agreement to the effect that no cause of action shall accrue in respect of any matter required by the agreement to be referred until an award is made under the agreement, a cause of action shall, for the purpose of limitation, be deemed to have accrued in respect of any such matter at the time when it would have accrued but for that term in the agreement.

(*3*) For the purposes of this section and of the Indian Limitation Act, 1908, an arbitration shall be deemed to be commenced when one party to the arbitration agreement serves on the other parties thereto a notice requiring the appointment of an arbitrator, or where the arbitration agreement provides that the reference shall be to a person named or designated in the agreement, requiring that the difference be submitted to the person so named or designated.

(*4*) Where the terms of an agreement to refer future differences to arbitration provide that any claims to which the agreement applies shall be barred unless notice to appoint an arbitrator is given or an arbitrator is appointed or some other steps to commence arbitration proceedings is taken within a time fixed by the agreement, and a difference arises to which the agreement applies, the Court, if it is of opinion that in the circumstances of the case undue hardship would otherwise be caused, and notwithstanding that the time so fixed has expired, may on such terms, if any, as the justice of the case may require, extend the time for such period as it thinks proper.

(*5*) Where the Court orders that an award be set aside or orders, after the commencement of an arbitration, that the arbitration agreement shall cease to have effect with respect to the difference referred, the Court may further order that the period between the commencement of the arbitration and the date of the order of the Court shall be excluded in computing the time prescribed by the Indian Limitation Act, 1908, for the commencement of the proceedings (including arbitration) with respect to the difference referred.

Disputes as to arbitrator's remuneration or costs.

38. (*1*) If in any case an arbitrator or umpire refuses to deliver his award except on payment of the fees demanded by him, the Court may, on an application in this behalf, order that the arbitrator or umpire shall deliver the award to the applicant on payment into Court by the applicant of the fees demanded, and shall, after such inquiry, if any, as it thinks fit, further order that out of the money so paid into Court there shall be paid to the arbitrator or umpire by way of fees such sum as the Court may consider reasonable and that the balance of the money, if any, shall be refunded to the applicant.

(*2*) An application under sub-section (*1*) may be made by any party to the reference unless the fees demanded have been fixed by written agreement between him and the arbitrator or umpire, and the arbitrator or umpire shall be entitled to appear and be heard on any such application.

(4) The Court may make such orders as it thinks fit respecting the costs of an arbitration where any question arises respecting such costs and the award contains no sufficient provision concerning them.

CHAPTER VI.

APPEALS.

(*b*) by leaving it at the usual or last known place of abode in British India of that person, or

Act to apply to all arbitrations.

47. The provisions of this Act shall, subject to section 46, apply to all arbitrations and to all proceedings thereunder, and any arbitration award otherwise obtained shall not be enforceable for any purpose and shall not, except on the application of all the parties concerned, be taken into consideration by a Court as a compromise or adjustment of a suit.

STATEMENT OF OBJECTS AND REASONS.

The law of arbitration in British India is at present substantially contained in two enactments, the Indian Arbitration Act, 1899 (IX of 1899) and the Second Schedule to the Code of Civil Procedure, 1908. The operation of the 1899 Act is limited to the Presidency towns and to such other areas as it may be extended by the appropriate Provincial Government: its scope is confined to "arbitration by agreement without the intervention of a Court". The Second Schedule to the Code of Civil Procedure deals with arbitrations outside the operation and scope of the 1899 Act: it relates for the most part to arbitration in suits, though arbitration without intervention of a Court is also briefly provided for. This Schedule also contains an alternative method whereby the parties to a dispute or any of them may file their arbitration agreement before a Court which after a certain procedure, refers the matter to an arbitrator.

2. The question of amending and consolidating this law is not new. The Civil Justice Committee in 1925 recommended several changes in the arbitration law. The Act of 1899 was based largely on the then English law, to which several substantial amendments have been effected by an amending Act of Parliament in 1934 (24 & 25 Geo. 5, c. 14). In 1938 the Central Government placed an officer on special duty to examine the question, and the present Bill is the outcome of this examination. The existing law, the amended English law and the recommendations of the Civil Justice Committee have been scrutinised together, and the present Bill which seeks to consolidate and standardise the law relating to arbitration throughout British India, in its detail extracts from the sources referred to those principles of law which, it is considered, are most suitable to British India.

3. More detailed explanations of the several clauses of the Bill are contained in the notes on clauses appended.

NOTES ON CLAUSES.

Clauses 3, 4 and 5 reproduce with minor alterations the provisions of sections 6, 7 and 5 respectively of the 1899 Act, and deal with the terms of arbitration agreements.

Clauses 6 and 7 follow closely sections 1 and 2 of the Arbitration Act, 1934 (24 and 25 Geo. 5, c. 14): their purpose is to standardise the law as to the effect on an arbitration agreement and proceedings of the death or insolvency of a party thereto.

Clause 8 dealing with the Court's power to appoint an arbitrator in certain cases, reproduces with some verbal changes section 8 of the 1899 Act.

Clause 9 amends section 9 of the 1899 Act in the following directions: provision is made to suit mofussil conditions by making it clear that the defaulting party's time for appointing an arbitrator runs only from the *receipt* of notice, and the proviso is elaborated (*a*) to make it clear that it is only in the arbitrator's capacity as sole arbitrator (and not as the arbitrator of the party appointing him) that the Court may set aside the appointment, and (*b*) to permit the Court, on sufficient cause being shown, to allow further time to the defaulting party, or in any event to make such alternative order as it thinks fit.

Clause 10 makes provision for cases in which more than two arbitrators are appointed. The first two sub-clauses follow closely section 4 of the 1934 Act of Parliament.

Clause 11 empowers the Court to remove a dilatory arbitrator or umpire or one who misconducts himself or the proceedings. Section 16 of the 1899 Act and sections 6 and 15 of the 1934 Act of Parliament have been drawn on.

Clause 12 which follows section 3 of the 1934 Act of Parliament makes provisions for the consequences of the removal of arbitrators. (See also clause 36.)

Clause 13 sets out the powers of arbitrators: it is based to some extent on section 10 of the 1899 Act and on paragraph 11 of the Second Schedule to the Code of Civil Procedure, 1908.

Clause 14 relating to the procedure in filing an award, reproduces section 11 of the 1899 Act with two small changes in sub-clause (*2*): the provision of paragraph 10 of the Second Schedule to the Code, requiring that depositions and documents shall accompany the award, is included, and the notice of filing is to be issued by Court and not by the arbitrator as in the 1899 Act.

Clause 15 dealing with the Court's powers to correct an award, reproduces without change paragraph 12 of the Second Schedule to the Code.

Clause 16 deals with the Court's powers to remit an award for reconsideration. Sub-clause (*1*) repeats without change paragraph 14 of the Second Schedule to the Code, and the remaining sub-clauses reproduce the substance of the first sentence of paragraph 15 (*1*) *ibid*.

Clause 17 follows with minor alterations paragraph 16 of the Second Schedule to the Code. Herein lies one of the substantial points of difference in the existing law: under the Code, judgment is entered in accordance with the award and a decree follows. Under the 1899 Act (following the then English law) an award is executable as a decree but is not a decree for all purposes. The 1934 Act of Parliament has changed the English law in this respect, and by this clause it is proposed to standardise the law in the direction of providing that judgment shall be pronounced in the terms of the award and that a decree shall follow.

Clause 18.—In following the Civil Procedure Code, clause 17 seeks to amend the existing law in places where the 1899 Act is in force in another manner. At present under that Act an award is immediately enforceable as a decree, and one High Court has held that it may be executed under section 15 (*1*) of that Act even though the notice of filing under section 11 (*2*) has not been given. This position is at variance both with the Code and with the English law, and it is now proposed to make the decree only after the time for challenging the award has expired or when such a challenge if made has been rejected. This clause, taken from the English rules of Court, is a corollary to clause 17 in the sense that it enables the Court to counter in the interval any action designed to defeat the subsequent execution of the decree.

Clause 19 provides that where an award becomes void or is set aside, the Court may supersede the reference and order that the agreement shall cease to have effect with respect to the particular difference referred. The clause generalises the provisions of paragraph 15 (*2*) of the Second Sechedule to the Code.

Clause 20 deals with jurisdiction. It provides that all the matters relating to a single referrence shall be before the same Court, and that where there is a choice of forum, it shall be determined by the first application made to a Court in relation to a reference.

Clause 21 is based upon paragraph 17 of the Second Schedule to the Code. It allows the parties to an arbitration agreement or any of them to initiate the reference proceedings with the assistance of the Court.

Clauses 22 to 24 reproduce substantially paragraphs 1 to 3 of the Second Schedule of the Code. They set out the initial steps to be taken for arbitration in a suit.

Clause 25 is a new provision. It is possible that some parties only to a suit may be agreeable to having the differences between them settled by arbitration. This clause will permit this to be done provided that those differences can be separated from the rest of the subject-matter of the suit.

Clause 26 applies with necessary modification certain other provisions of the Bill to arbitrations in suits.

Clause 28 is a new provision, based on the 1934 Act of Parliament, and conferring on arbitrators the power to make an interim award.

Clause 29. Under the 1899 Act the arbitrators or umpire can themselves enlarge their time for making an award, though it seems that they must do so before the time actually expires. Under the Code it is the Court which has this power. The clause proposes that the power should in all cases vest in the Court only, who may extend the time whether the time has expired or not or whether the award has actually been made or not.

Clause 30 makes necessary provision as to interest when the award makes no provision therefor. It is based on a similar provision in the 1934 Act of Parliament (section 11).

Clause 31 follows paragraph 11 of the Second Schedule to the Code in setting out the grounds on which an award may be set aside.

Clauses 32 and 33 provide that an arbitration agreement or award shall be contested only by application and not by suit. This proposal was made by the Civil Justice Committee and is in consonance with the general principle that the law of arbitration should provide simple, speedy and cheap settlement of differences.

Clause 34 deals with the staying of a suit where a reference concerning the subject-matter of the suit and between the same parties is pending. It continues the existing law contained in section 19 of the 1899 Act and paragraph 18 of the Second Schedule to the Code.

Clause 35 relates to the effect of subsequent legal proceedings on a pending reference. Such proceedings will not affect the reference unless (*a*) they relate to the whole of the referred matter and (*b*) all the parties to the reference are impleaded in the proceedings. Where these conditions are fulfilled, the legal proceedings will nullify the arbitration proceedings on the expiry of the time within which an application to stay the legal proceedings may be made or on the refusal of such an application.

Clause 36 is based on section 3 (*4*) of the 1934 Act of Parliament, and supplies an omission in the present Indian Law. An agreement may contain a clause that no legal proceedings shall be taken on a certain matter unless the matter has first been made the subject-matter of an award. It is necessary to empower the Court to overrule this provision when the award is set aside or otherwise becomes void.

Clause 37 makes provision as to limitation in arbitration matters and follows closely section 16 of the 1934 Act of Parliament.

Clause 38 deals with disputes as to the arbitrator's fees and costs, and follows generally section 13 of the 1934 Act of Parliament and paragraph 13 of the Second Schedule to the Code. The Court may require the arbitrator to deliver up the award on the deposit into Court of the amount he claims, and may then investigate the claim and grant to the arbitrator such sum as fees as it thinks reasonable.

Clause 39 deals with appeals and replaces that part of section 104 (*1*) of the Code of Civil Procedure, 1908, which this Bill seeks to repeal.

Clause 40 has the effect of providing that Small Cause Courts shall not deal with arbitrations other than arbitrations in suits before it.

Clause 41 and the Second Schedule deal with procedure. The clause confers generally the same powers as the Court enjoys under the Code of Civil Procedure and with the Schedule adds certain special powers in relation to arbitrations on the lines of section 8 (*1*) of the 1934 Act of Parliament.

Clause 42 makes provision for the service of notices under the Bill between parties or between arbitrator and parties.

Clause 43 follows paragraph 7 of the Second Schedule to the Code in requiring the Court to assist the arbitrator to enforce the production of evidence and empowering the Court to punish default or contempt before the arbitrators as if it were committed before the Court.

Clause 44 reproduces with small changes section 20 of the 1899 Act and empowers High Courts to make rules.

Clause 45 repeats section 22 of the 1899 Act and binds the Crown.

Clause 46 applies with certain exceptions the provisions of the Bill to statutory arbitrations, and is based on section 20 of the 1934 Act of Parliament.

Clause 47 applies, subject to clause 46, the Bill to all arbitrations, and renders an arbitration award obtained otherwise, unenforceable. The clause replaces section 89 of the Code of Civil Procedure, 1908, which this Bill repeals.

Clause 48 saves references pending at the commencement of this enactment: such references will continue to be governed by the existing law.

The First Schedule follows the First Schedule to the 1899 Act. The main differences are (*a*) arbitrators are required to appoint an umpire within a month of their own appointment, (*b*) the power to enlarge the time for making the award is transferred to the Court (*cf.* clause 29), and (*c*) item VII is omitted as redundant in view of clause 13 (*a*).

The Third Schedule with clause 49 (*1*) repeals the existing general arbitration law.

The Fourth Schedule makes certain consequential amendments of which those to the Limitation Act are the most important. The second amendment of the Specific Relief Act, 1877, replaces section 3 of the 1899 Act.

A. AHMAD, for *Director of Agriculture, Bengal.*

Dacca, the 14th August 1939.

Annual Report of the Royal Botanic Garden and the Gardens in Calcutta and of the Lloyd Botanic Garden, Darjeeling, for 1938-39.

ROYAL BOTANIC GARDEN.

General.—The record number of visitors that the garden attracted this year, particularly during the cold weather holidays, indicates increasing popularity of the garden. The garden continues to serve as a source of recreation, education and botanical researches. It is gratifying to note that the Indian visitors are getting more and more picnic minded and fully utilised the latitude allowed to them in the garden. The public support that the garden rightly deserves is thus ensured. Better road facilities induce those arriving by cars to make more frequent visits to the garden. The number of such visitors is daily on the increase. Wheeled and motor traffic throw responsibilities and obligations on the garden staff to keep the roads fit. The garden roads are never meant for heavy traffic. The light macadamised surface introduced during the last few years in the garden can hardly stand up to cars often running at a great speed. Tarring of the garden roads is primarily meant to eliminate the dust and in this respect the garden roads have improved much to the comfort of the visiting public. Very few gardens of this standard permit driving cars inside the garden. The life of the roads will be extended and the safety of the visitors, particularly ladies and children walking along its shady avenues and pathways, will be assured if some of the motorists remember that the garden roads are not speed-tracks. Necessary notice-boards have been put up in proper places warning drivers of the cars to reduce the speed, and it is expected that such steps will have the desired effect. Garden routine during the year received proper attention and special attempts were made to improve the general aspect of the garden and its collections. Success in growing cold weather annuals depends on various factors and even experience and expert knowledge fail to maintain good quality of the blooms, which varies in standard from year to year, in Sibpur and Calcutta gardens. They were not up to the mark this year in the Botanic Garden, whereas they did very well in the Calcutta gardens. This deficiency in the standard was made up at the Sibpur garden by successfully growing many a rare and delicate variety. This formed the special feature in the Agri-Horticultural shows and the exhibits of annuals and especially perrennials of the Sibhpur garden attracted usual admiration. The display of seasonable flowers of attractive colours in the artistic beds on the slopes of lakes along the vistas formed a special feature this year. Some of the bushes of *Bougainvillaea* forming backgrounds for these beds burst out into magnificent bloom during February to March. The Shade Rockery continued to be a spot for the study of some of the common sub-tropical hill plants. The *Azalea sp.* and *Saxifraga serpens* brought from Darjeeling and *Bryophyllum tubiflorum* from Ootacamund were in bloom during January and February. Other plants which flowered profusely were *Hæmanthus multiflorus, Gerbera, Jamesonii, Solidago Canadensis, Pentas carnea, Crossandra undulaefolia, Crossandra undulaefolia var lutea, Begonia semperflorens,*

Solanum macranthum, Impatiens Sultani, Mussaenda erythrophylla, Bryophyllum proliferum, Turnera ulmifolia, Plumbago capensis, Pentlandia grandiflora, Strelitzia prolifera, Clerodendron fallax, Dianella nemorosa, Datura suaveolens, Hydrangea hortensis, Passiflora atropurpurea, Clerodendron ugandense, Galphimia gracilis, Ruellia tuberosa var alba. There has been an appreciable increase in the stock of the East Himalayan orchids in the three gardens as a result of the Superintendent's botanical explorations in the Assam Hills. Some of the orchids adapt themselves to the Calcutta climate and flower freely, while a few are rather sensitive and are prone to delayed blooming.

There has been commendable improvement in the standard of general cleaning by readjustment of labour and by adopting a more organised and scientific method of cleaning operation. Provision of a few additional appliances proved effective in maintaining the lawn-like condition of the open grounds. Much of the expenditure in manual labour has been reduced by the use of the tractor, which has proved an indispensable adjunct to this garden. In addition to cutting grass in the open spaces, it was utilised for various other purposes such as for rolling roads, carrying logs and pumping out water from the tank. The work that this useful machine has done during the last few years fully justifies its acquisition. The machine is ageing fast and will soon have to be discarded. The expenditure incurred on its repairs are proving rather a drain on the limited budget. The machine will have to be replaced by a new one in time lest the work of the garden is affected. Dressing up and rolling of the lawns received attention, as on this work depends greater use of the gang-mowers attached to the tractor.

Vistas and avenues looked trim by timely and judicious pruning. Sufficient efforts towards enriching unrecorded and rare plants were made by reviving exchange relations. Representation of the different species in their respective positions in the various geographical divisions of the garden continued on the usual lines with reference to the garden catalogue, the revision of which has been taken in hand. Special attention was paid this year to the Great Banyan. The epiphytes were more or less cleared up and some of the branches infected with fungi and insects were removed. The aerial roots were attended to properly and the branches extending over the roads were supported by an overhead platform with the idea of getting these branches spread across the roads. The branches thus treated, will, in course of time, form an archway over the roads round the banyan circle.

One of the arterial roads of the Garden, the Hamilton Avenue, the repair of which was long overdue, has been thoroughly renovated and surface tarring completed within the current year. Wallich Avenue, Kyd Avenue, Scott Avenue, Kurz Avenue and Falconer Avenue were also partly macadamised. Necessary repairs of Banyan, Griffith, Hooker, Collett and Palmyra Avenues were also done. The muster sheds and the workshops which were in a dilapidated state were thoroughly overhauled and partly remodelled with extensions providing arrangements for necessary attention to and repair of the garden implements and tools. Provision for proper protection of the garden is becoming keenly felt due to more and more crowded population outside the boundaries of the Garden. The barbed wire fencing along the boundary is frequently tampered with and the moat round the garden, which requires re-excavation, does not prove to be an effective barrier particularly along the north-western and northern borders of the garden.

Frequent repairing of the fences along these sides of the garden becomes an expensive and tiresome job. It is high time that immediate steps for the erection of a proper boundary wall are taken. Several bridges were repaired and painted.

Attempts were made to remedy the unsatisfactory condition of the tanks in the Botanic gardens and also in the Eden gardens by removing silt from the portions which were reduced to more or less swamps. But such removal of silt in the absence of re-excavation proved fleeting. Without thorough re-excavation there can hardly be any lasting effect.

Revetment work of the river bank now in charge of the Irrigation Department was attended to as far as the funds permitted. But the safety of the garden is being threatened by erosion in the portions which have not yet been provided with a wall. The beauty and attractiveness of the river frontage, the most frequented spot of the garden can be enhanced by necessary improvements to this important item of the garden amenities.

The usual planting operation replacing dead and decaying species of plants was carried on. One hundred and fifteen species were planted, of these the following are new additions to the garden: *Jasminum sp.*, *Bauhinia taittensis*, *Buddleia volubilis*, *Dioclea lasiocarpa*, *Cassia laevigata*, *Hibiscus diversifolius*, *Duranta lorentzii*, *Chorisea speciosa*, *Costus discolor*, *Desmodium Dillenii*, *Viginiera helinthoides*, *Hyptis capitata*, *Saraca thaipingensis*, *Dolichos Halei*, *Vitis incostans*, *Phœnix humilis*.

Steps have been taken towards experimenting on several plants of considerable economic importance. Aguru yielding plant, *Aquilaria agallocha*, a species predominant in the Garo Hills, Assam, has been introduced to the Garden at the instance of Dr. S. R. Bose, Professor of Botany, Carmichael Medical College, Calcutta. Dr. Bose has proved by his investigation that the commercial product aguru, the well-known scent, is a kind of gum found embedded in the wood of the tree. The excretion of the gum is the result of an attack by a species of fungus whose mycelia spread as a network inside the woody tissue. The infection starts from a wound in the trunk. When sufficient quantity of aguru accumulates inside the trees, the Garos spot them by tapping the trunks. The selected trees are then felled and the gum collected and sold. About 75 per cent. of the seeds sent have germinated and the plants are now being reared in a part of the Sibpur Botanic Garden, the Eden Gardens and the Lloyd Botanic Garden, Darjeeling. It will take some time before the plants acclimatise and grow up to an appreciable size when inoculation experiments will have to be started if they survive outside their habitat. Thanks are due to Mr. A. R. Thomas, Divisional Forest Officer, Sibsagar Division, who kindly supplied the seeds of this valuable species. Seeds of a few species of fodder grasses supplied by the Economic Botanist to the Government of Bengal were also grown for experimental purpose in the economic ground, but the result was not very encouraging. Nearly 90 per cent. of the seeds of tea plants obtained from Assam germinated vigorously and the seedlings are in a healthy state even during the sultry weather this year. Germination of *Adansonia digitata*, the Baobab tree, is also worth mentioning. Layering experiment on the cinchona plant (*Cinchona ledgeriana*) continues at the nursery. This quinine-yielding plant is still living in a healthy state.

Special efforts were made to label the plants in the open. About 150 new labels were written and 673 old labels were rewritten. About 700 new small labels were written noting the names of the various species grown in the Orchid House, Palm Houses, Shade Rockery, Ferneries, Succulent House and Nurseries.

2. **Plant and seed exchange.**—Five thousand seven hundred and ninety-one plants were distributed and 1,652 plants were received in exchange. Nine hundred packets and 17 lbs. of seeds have been distributed not only to various parts of India but also to various countries overseas such as Great Britain, Germany, Russia, Holland, North America, Honolulu, Egypt, Persia, Hongkong, Japan and Australia. Five hundred packets of seeds were received in exchange. Names of eight new institutions have been added to the exchange list.

3. **Herbarium and library.**—Different items of the herbarium work received due attention. Opportunities for examination of the herbarium materials and determination of botanical specimens for the study of special groups of Indian flora were frequently utilised. About 2,330 specimens were identified for various institutions and correspondents in India and Burma. Of these, 178 were received from Sikkim Raj State, 272 from the Agricultural Officer, Baluchistan, 192 from botanical Forest Officer, Shillong, 129 from the Locust Research Entomologist, Karachi, 39 from the Imperial Mycologist, New Delhi, 41 from Forest Botanist, Dehra Dun, 50 from the Calcutta University, 137 from Mr. H. Crookshank of the Geological Survey of India, 81 from the Economic Botanist, Mandalay. One thousand nine hundred and seventy-seven sheets were sent on loan in connection with the critical taxonomic study of some of the important families and groups of plants. The largest number, 936 sheets of *Eugenia*, went to the Director, Botanic Garden, Singapore; 272 sheets of *Clausena* to Dr. W. T. Single, Washington, U.S.A.; 154 of *Alangium* to curator, Buitenzorg, Java; 62 sheets of *Sagittarea* to Professor H. Gluck of Heidelburgh University, Germany; 21 sheets of *Balanocarpus* to Forest Botanist, Kepong, Selangor, Malay Peninsula; 416 sheets of *Primula* to Sir Edward Benthall, Calcutta; 11 old specimens of *Algæ* to Professor W. Troll of Germany (at the request of Sir David Prain); 52 valuable very old sheets of *Fungi* to Dr. G. W. Padwick, Imperial Mycologist, Imperial Agricultural Research Institute, New Delhi; 40 sheets of *Derris* to Mr. S. N. Bal, Curator, Industrial Section, Indian Museum. Five thousand nine hundred and fifty-two sheets were received back from loan. The bulk of these sheets consisted of the specimens of *Labiatæ* sent out to Sir W. W. Smith of the Royal Botanic Garden, Edinburgh, for a detailed study of the family by Dr. S. K. Mukerjee, now acting as Curator of the Herbarium. All the sheets sent to Sir Edward were returned within a short time after his scrutiny. About 2,415 duplicate sheets were either exchanged or presented to various institutions in India and abroad. Dr. Merrill, Director and Administrator of the Arnold Arboretum of the Harvard University, was the recipient of 2,054 specimens of the East Himalayas: 212 Bengal specimens went to Professor J. R. Matthews of Aberdeen University; 97 East Himalayan specimens to Professor F. E. Fritsch of Queen Mary's College, London University; 52 East Himalayan specimens to the Botanic Garden, Buitenzorg, Java; 12 root stocks of water plants to Dr. T. Mouravieff, Paris, France; one authentic sheet of *Peony* to the Director, Royal Botanic Garden, Kew; specimens of *Algæ* of the Loktak Lake to

Dr. P. W. Krieger of Berlin University, for incorporation of the writer's work on this branch of Botany in Rabenhorst's Cryptogamen Flora. About 3,055 specimens were acquired by exchange. Of these, about 416 Siamese, Bhutanese and Malayan specimens were received from the Director, Royal Botanic Garden, Kew. A few of these specimens were so long unrepresented in the Calcutta Herbarium. Best thanks are due to Sir Arthur Hill for the gift. It is gratifying to note that the time-honoured relation between Kew and Calcutta has thus again been renewed. One thousand and seventeen sheets were kindly presented to the herbarium by Dr. Merrill. Cordial relations in botanical matters between the Arnold Arboretum of the Harvard University and Sibpur Herbarium and the garden has been established. In spite of the disturbed condition in China the botanical interests of the country remained unabated. Grateful thanks are due to the Lingnan University, Canton, and Fan Memorial Institute of Biology, Peiping, for their generous gift of 171 specimens by the former and 751 Yunnan specimens by the latter. These Yunnan specimens are particularly useful due to the floristic affinities between the flora of the North-Eastern Frontier of India and Burma on the one side and Szechuan and Yunnan on the other. The other contributors are Mr. L. O. Williams, Harvard University; Divisional Forest Officer, Kolaba; Forest Botanist, Dehra Dun; Director, Botanic Gardens, Singapore; Mr. A. Das, Assam, Shillong and Economic Botanist, Burma, Mandalay.

Four thousand one hundred and twenty-seven sheets were incorporated, 4,000 genus and species covers changed, 800 old sheets repaired, and 500 specimens mounted during the year. Various information on many botanical matters both in their scientific and applied aspects were supplied to no less than 70 correspondents.

During October last, a botanical tour in the Assam Hills was undertaken by Superintendent. About 2,000 specimens were collected from the gorges at Pynursula and Cherrapunji and other unfrequented areas in the neighbourhood of Shillong Hills. About 220 species of living orchids were brought for cultivation at the Royal Botanic Garden and the Lloyd Botanic Garden, Darjeeling.

Work of Lt.-Col. R. N. Chopra on the poisonous and medicinal plants of India continued at the herbarium by Mr. N. C. Goswami and the artists under the supervision of Mr. R. L. Badhwar. The Superintendent, the Systematic Assistant, Botanical Survey of India, and the Curator of the Herbarium, rendered their usual help and co-operation to these workers.

Dr. G. Taylor of the British Museum (Natural History, Botany), London, while on a botanical exploration in Tibet, paid a visit to the herbarium and the garden. Mr. H. A. Johnstone of London studied both the herbarium materials and the living species of palms cultivated in the Palmetum and other parts of the garden. Mr. R. C. Mundell, Senior Research Entomologist, Commonwealth of Australia, Sherwood, Brisbane, consulted the herbarium sheets of *Xanthium*. He was furnished with necessary botanical information in connection with his investigation to find out a suitable insect that would destroy a plant pest in his country. Mr. T. Tang studied Indian Orchids, Cyperus and Lilies in the herbarium for a few days, checking his data collected from other leading herbaria of the world. Lt.-Col. F. H. Lister of His Majesty's Body Guard showed much interest in the botanical

collections and literature of the herbarium. Due attention and facilities were offered to Mr. V. Mahdavi of the Agricultural College, Teheran, Persia, during his work at the herbarium. Necessary information on the cultivation and botanical investigation of various economic plants likely to grow in Persia was furnished to Mr. Mahdavi. Dr. N. L. Bor, Forest Botanist, Imperial Forest Research Institute, Dehra Dun, scrutinised some of the grasses of the Calcutta Herbarium in connection with his study of Assam grasses. He subsequently sent his Assistant Mr. M. B. Raizada to work for a few days at the herbarium in order to clear up the systematic position of many doubtful specimens in consultation with the authentic sheets. Mr. A. Das paid his usual frequent visits to the herbarium in connection with the preparation of the Flora of Assam, and Assam Forest Records. Full help and cooperation was given to Mr. Das and Volume III of the Flora of Assam has just appeared. Mrs. V. deSibons of South Africa, Mrs. H. P. V. Townend of Chinsura, Mrs. Rankin, Miss M. T. Cleghorn, Miss O. Cleghorn, Calcutta, Dr. J. C. Haigh of the Department of Agriculture, Ceylon, Mr. R. Dutt, Industries Department, Bengal, Messrs. A. Salam Nasurulla of the Osmania University, Hyderabad, and B. N. Mulley of Sind, were all given ungrudging help and facilities in connection with their studies at the herbarium.

Maharaja Bahadur Sir Prodyot Kumar Tagore, K.C.I.E., Kt., during his visit to the garden took keen interest in the old collections of the herbarium and in the cultivation of some of the rare water-lilies, lotus and other ornamental water plants introduced recently to the garden. Col. H. M. Mackenzie, Director, British Public School Boys, Tour Party with about fifteen boys, and Reverend D. Lansdell Clarke of Melbourne Grammar School, Australia, with about 35 boys visited the garden and the herbarium, the former on the 7th February and the latter on the 27th January. The boys were much impressed with the beauty of the garden and the geographical arrangement of the tropical plants of the world represented so artistically and scientifically over such a wide area of the garden. They took also particular interest in the irreplaceable Icones, botanical literature and old authentic herbarium specimens so well preserved in the herbarium building for a period of a century and a half. The Hon'ble Mr. A. K. Fazlul Huq, Chief Minister and Minister of Education, was so good as to meet the English and Australian school boys and their Directors at the Garden where they were duly received and entertained.

The library work continued on the usual line. One hundred and fifteen journals were received and 71 reprints, annual reports and new lists were presented to the library. Sixty-four books were lent out and 29 received back. Forty-seven books were presented by different persons and universities in India and abroad. Thirteen books were purchased. Of these the Supplement IX (1931-35) of the Index Kewensis formed an indispensable addition to the library. Two hundred and fifty-four volumes were bound at the Government of Bengal Press and 82 books have been re-bound and repaired at the garden office.

4. **Publications.**—Printing of Volume 14, Part II of the Annals of the Royal Botanic Garden, was completed. The following papers were published by the Superintendent:—(1) A new Nannandrous Oedocladium from India, Revue Algologique, 1939; (2) Common Diatoms of the Loktak Lake, Manipur, Assam, Journal of the Royal Asiatic Society of Bengal, Volume II, No. 2, 1939; (3) Species Novæ

(Gentians) Hooker's Icones Plantarum, London, 1938; (4) Obituary of the late Dr. A. B. Rendle, F.R.S., Current Science, Volume VIII, No. 2, 1938; (5) Court historique du Jardin Botanique Royal de Calcutta, Bulletin de la Societe Botanique de France, Paris, 1939. The following works are still passing through the press: Bharatiya Banousadhi Parichaya in two volumes, by K. Biswas and E. Ghosh, Calcutta University Press; Plants of the Lloyd Botanic Garden, Darjeeling, by K. Biswas and A. revision of the Labiatæ of the Indian Empire by S. K. Mukerjee to be published in the Records of the Botanical Survey of India. The work on the new Flora of Bengal is proceeding steadily.

Arrangements are pretty advanced for the publication of the 150th Anniversary Volume of the Royal Botanic Garden, Calcutta. About 30 articles contributed by the leading botanical authorities have been received from different parts of the world.

5. **Finance.**—Out of the budget allotment of Rs. 51,028 for staff and permanent establishment, Rs. 45,835 were spent and under all other heads the expenditure amounted to Rs. 46,785 against the total allotment of Rs. 49,083. A sum of Rs. 7,418 was surrendered. There was a net saving of Rs. 72 under all heads during the year. Receipt of the department during the year amounted to Rs. 1,182.

6. **Staff.**—In addition to his duties as Curator of the Herbarium which he performed up to the 11th October 1938, Dr. K. Biswas held the post of the Superintendent throughout the year. Dr. S. K. Mukerjee was Curator of the Herbarium from 12th October 1938, till the end of the year.

Except for a short period from 27th September to 2nd October 1938, when he was on deputation to the Patiala State, Mr. N. Mitra was Curator of the Gardens throughout the year. Mr. Md. Quasem Ali was Assistant Curator throughout the year and in addition he carried the current duties of the Curator during the period of Mr. Mitra's deputation.

Mr. Gholam Mohiuddin held the post of Overseer till 18th May 1938, when he was transferred to Calcutta Gardens, being relieved by Mr. J. A. Hulbert who was Overseer till the end of the year. Mr. A. T. Banerjee was Head Clerk throughout the year. All officers, the clerical establishment and other members of the staff worked satisfactorily.

CALCUTTA GARDENS.

The somewhat unfavourable climatic conditions and a prolonged summer during the year under review resulted in a shorter period of bloom for the winter annuals. But on the whole the display of the cold weather flowers and perennials have been satisfactory. The increased number of annuals in pots were artistically staged at various vantage points of the lawns and the sides of the lakes of the Eden Gardens and the balustrade on the west and eastern side of the Dalhousie Square. The pier vases on all four sides of the Dalhousie Square were

tastefully decorated with ornamental plants. The flowering of the *Dahlias* was a noteworthy success this year, and some of the individual blooms attained record size—almost 12 inches in diameter. *Asters*, *Kochia* and *Pensies* also did very well. In fact, as I have already stated flowering of the winter annuals in the Calcutta Gardens reached a high standard. Particular care and attention was given to the portion of the lawn surrounding the band stand which was returfed in the previous year. The suitable chemical manure used gave good results and the lawns now look almost like tennis lawns. Redesigning of the flower beds the north side of the Pagoda, for the better effect of colour schemes, was taken recourse to this year after a long period. The general effect of the flowers on these new beds added much to the aesthetic aspect of the garden.

The statue of Sir Robert Peel was transferred from its former place to the site in front of the Eden Garden band stand. A portion of the boundary wall on the south-western corner of the Eden Gardens was demolished and rebuilt after surrendering a very small portion of the garden land required for the erection of the memorial statue of His Majesty the late King George V. The usual attention to repairing and painting of benches, notice boards and other items was paid.

Some fish were caught from the jheel in the Eden Gardens, Calcutta, and were transferred to the Dalhousie Square Garden tank. This resulted in the increase of revenue during the last year as compared to that of the previous years. This shows that if the tank is stocked with fish fry encouraging results from the point of revenue will be assured. An improvement has been effected in erecting a reservoir at the Eden Gardens where malis and labourers can wash their clothes and utensils. The labour force has thus been prevented from using the jheel water directly and adding to the unhygienic conditions. I do not know if and when sufficient funds will be available for the re-excavation of the tanks of the Eden Gardens. But a small annual grant may perhaps be utilised to maintain the tanks in the heart of the town at least in a moderately sanitary condition, by clearing up the weeds and lifting the silt from time to time.

The seeds of two interesting species, *Aquillaria Agallocha* and *Adansonia digitata*, successfully germinated also in the Eden Gardens. *Durio zibethinus*, the well-known fruit eaten so much by the Burmese, has been planted in the open and it is doing well there. About 150 flowering shrubs and trees were planted in suitable spots during the year.

Owing to the biological conditions and the suitable arrangement for the water-supply the tank in the Eden Gardens proved particularly favourable to the development of the giant water lily of the Amazon. Plants are now raised year after year from the acclimatised seeds. They grow profusely covering large areas of the tank. This water plant, botanically known as *Victoria regia Lindl.*, is an object of rare interest to the public and can be seen at its best advantage during November to February, when the floating leaves attain their enormous size with the characteristic spinous upturned edges and the flowers open one after the other.

Repairs of the roads and pathways which have been long overdue could not be undertaken due to shortage of funds. The increased crowd passing through the gardens, particularly during the football and the cricket seasons using the roads and pathways of the gardens as short cuts makes it imperative to pay special attention to this item of the garden work.

Eden Gardens being situated in the heart of the city of Calcutta is fully utilised by the city dwellers as a place for recreation and inspiration in the morning and the evening. The visiting public which has considerably increased in recent years will enjoy a band if it can be reintroduced at the band stand in the evening.

Finance.—Out of the total budget allotment of Rs. 30,465 under all heads Rs. 30,454 were spent leaving a small saving of Rs. 11. Receipts during the year from the Eden Gardens and Dalhousie Square Garden amounted to Rs. 70 only.

Staff.—Mr. Merlin Jones was Assistant Curator of the Calcutta Gardens throughout the year. Mr. J. A. Hulbert was Overseer till the 18th May 1938, when he was relieved by Mr. Mohiuddin transferred from the Royal Botanic Garden.

LLOYD BOTANIC GARDEN, DARJEELING.

Rainfall at the garden was 148 inches. This is rather in excess of the average rainfall which affected to a certain extent growth of annuals. Routine work of the garden was attended satisfactorily during the year. Special attention was given to the extension of Sir John Anderson Rock Garden. The plants added this year were:—

Androsace lactiflora, Campunula carpatica, Eringium ferra, Lobelia syhpilitica, Jasione montana, Veronica incana, Gentiana decumbens, Eringium planum, Boykinia aconitifolia, Leontopodium alpinum, Armeria mauritanica, Erigeron macranthus, Campanula pusilla, Gentiana septenophile, Aetheonima coridifolium, Alsine nema or *sema, Inula helenium, Dianthus Scotch Pink, D. Allwoodii, Heuchera sanguinea, Primula mooreana, Erinus alpinus carminus, Asperula azurea setosa, Linaria alpina, Sarpiurus subr., Primula bulleyana, Lychnis foresta, Draba Aizoon, Meconopsis prattii, Matricaria chamomilla, Alsine pinifolia, Aubrietia deltoidea, Oenothera speciosa, Oenothera rosea, Primula Halenae, Lotus edulis,* etc.

Owing to the peculiar climatic conditions the gardeners on the hills have to face much difficulty in maintaining the lawns in a proper condition. In spite of the natural disadvantages the lawns were kept tidy. Pruning and trimming of shrubs and trees and labelling of plants were attended to as usual.

A plan of the garden has just been prepared in connection with a publication based on the vegetation of the Lloyd Botanic Garden, Darjeeling. Roads and pathways have all been named according to this new plan. The trees growing in the representative geographical positions have been checked by the Superintendent during his inspection to the garden in connection with preparation of the guide book, catalogue of plants and the plan. Special attempts were being made to replace the

dead and decaying plants and introduce new and unrecorded species. Two hundred and forty-eight seedlings and 107 plants were added to this garden. These are receiving due attention. Ornamental annuals and perennials were staged at the conservatory in the usual manner. Of the new annuals and perennials introduced in the garden the following may be mentioned:—

Arctitis new hybrid, Asphodelus luteus, Cheiranthus allinoi, Cheiranthus kewensis, Cheiranthus maritumus, Alyssum blue, Asperula azure blue, *statice puberula, Draba Aizoon, Iberis gibralterica, Cynoglossum furcatum, Paeonia officinalis, Arnebia cornuta, Statice superba, Armeria mauritanica, Galtonia sp., Sprekelia formosissima, Papaver orientale, Armeria Lancheana splendens, Thalitrum dipterocarpum, Freesia refracta, Pyrethrum* new hybrid, *Oenothera rosea, Primula Halenae, Heliophila med,* blue, *Freesia refracta, Pyrethrum* new hybrid, *Lythrum Hyssopifolia, Alsine nema or sema, Paronychia argentia, Dianthus deltoides, Aquilegia eximea, Aquilegia vulgaris, Primula, Auricula, Nierembergia hippomanica, Rosa multiflora, Hippeastrum hybrida, Campanula persicifolia, Hyacinthus orientale, Haemanthus sp., Phajus himalalaicus, Iris xiphium, I. The display of flowers in the representative beds in the garden added much to the beauty of the garden. The beautiful blooms of *Meconopsis Wallichii* and *Lilium nepalense* and few other *alpine Gentians* were much appreciated. Attempts have been made to acclimatise some of the species of higher elevations. Of these the following seem to adapt themselves to the climatic conditions prevailing at Darjeeling:—

Lychnis nigrescens, Cyananthus lobatus, Thermopsis lanceolata, Androsace strigilosa, Thalictrum elegans, Impatiens falsifer, Cariaria terminalis, Roscoea alpina, Meconopsis discigera, Meconopsis horridula, Primula reticulata, Primula capitata, Primula sikkimensis, Primula elongata, Primula nivalis, Salvia glutinosa, Polygonum viveparum.

Out of 330 packets of seeds received from various correspondents seeds of the species noted below have germinated. These new introductions to the garden will prove of sufficient interest to the public.:—

Aquilegia Eximea, Aquilegia vulgaris, Veroncia incana, Heuchera sanguinea, Gentiana septemfida, Primula Bulleyana, Dianthus deltoides, Statice auriculaefolia, Scabiosa caucasica-superba, Primula Halenae, Gentiana acaulis, Campanula carpitica, Inula racemosa, Leontopodium, alpinum, Campanula lanata, Clianthus puniceus Melaleuca hypericifolia, Melaluca styphelioides, Swainsona coromillaefolia, Pinus massoniana, Asclepias tuberosa, Eringium Ferra Gentiana decumbens, Armeria lancheana splendens, Primula mooreana, Nepeta nervosa, Alsine nema or sema, Incarvillea Delaveyi, Allium angulosum, Boykinia aconitifolia, Buddleia stenostachya, Cotoneaster turbinata, Campanula latifolia, Cytisus monspessulanus, Desmodium Dillenii, Dianthus rigidus, Dracocephalum Ruyschiana,

Two thousand three hundred and fifty-four packets of seeds, 434 plants, 10,207 seedlings and 80 bulbs were distributed to the various botanical institutions in India and other parts of the world. Necessary repairs to the garden seats, durwans' shelters, conservatory and glass houses were done. Botanical specimens for educational purposes were also supplied to various colleges in India and abroad.

The herbarium section deserves particular attention. Its expansion by way of incorporation of unrecorded species from different parts of the Eastern Himalayas is essential. Work on these lines progressed but leaves much to be desired. Improvement of the scientific section always depends much on the bontanical interest of the Curator in charge of the garden, although, it is an admitted fact that sufficient funds are required to effect necessary improvement in this direction.

The garden register recorded 51,404 visitors to the garden during the year. The exhibits of flowering and ornamental plants at the annual Darjeeling Flower Show received due recognition by the award of the Royal Horticultural Society's Banksian Medal for the most meritorious exhibit.

Finance.—Practically the whole of the allotment of Rs. 15,620 was spent.

Staff.—Mr. S. N. Basu was Curator throughout the year.

NOTIFICATION.

No. 34-I.—19th August 1939.—The following draft of an amendment, which, in exercise of the power conferred by section 44 of the Bengal Development Act, 1935 (Bengal Act XVI of 1935), the Governor proposes to make in the Bengal Development Rules, 1936, published under notification No. 18-I., dated the 5th November 1936, is published for the information of persons likely to be affected thereby.

2. The draft will be taken into consideration on or after the 16th October 1939, and any objection or suggestion with respect thereto received by the undersigned before that date will be duly considered:—

Draft amendment.

After rule 68 of the said rules the following shall be added, namely:—

"*Determination of additional improvement levy under section 11.*

69. (*1*) If, when the Collector has reason to believe that any such land as is described in sub-section (*1*) of section 11 has been settled, he considers it advisable that an additional improvement levy should be imposed thereon under that section, he shall cause an officer or officers, not below the rank of Sub-Deputy Collector,

(*a*) to determine, in the manner described in rule 33, to what class such land shall be assigned, if this has not already been otherwise determined, and

(*b*) to inquire what rates of *salami* have been paid when (*i*) land assigned to that class and (*ii*) unculturable waste, swamp or sand have been settled with tenants in the vicinity; and, on receipt of the reports from such officer, or officers, he shall make estimates of the *salami* usual for such land as it was (*i*) at the time of the settlement and (*ii*) before the commencement of the improvement work.

(2) The Collector shall then cause to be served on the person who settles the land a notice which shall state the following particulars:—

(a) a description of the land sufficient to enable it readily to be identified;

(b) the class or classes to which it is assigned, with the area of the portion included in each such class;

(c) the substance of the provisional estimates made under sub-rule (1);

(d) a time, not less than thirty days after the date when the notice is served, by which objections will be received under sub-section (1) of section 11; and the place at which they will be received;

(e) the time and place at which such objections will be heard.

(3) Such notice shall be served in the manner specified in rule 39 for the service of a notice of demand under section 14.

(4) An objection under sub-section (1) of section 11 shall be in the form of a petition and stamped with a court-fee stamp of twelve annas, and shall be addressed to the Collector.

(5) If no objection is received the Collector shall declare the provisional estimates made under sub-rule (1) to be final estimates.

(6) If an objection is received, the Collector after giving the objector an opportunity of stating his case and after making or causing to be made such enquiries, if any, as he thinks necessary, shall make final estimates of the usual *salami* payable for such land as it was (*i*) at the time of the settlement and (*ii*) before the commencement of the improvement work.

(7) Thereafter the Collector shall fix the amount of the additional improvement levy to be payable in respect of the land under sub-section (1) of section 11. In fixing the amount of the additional improvement levy the Collector may take into consideration any profit that may have been derived prior to the improvement by the person who settled the land.

(8) The additional levy so fixed shall be published in a statement under section 13.

Procedure to be followed by officers and persons authorised under sub-sections (1) and (2) of section 24.

70. (1) No officer or person authorised under sub-section (1) of section 24 shall enter upon any land for making or causing to be made any boring or excavation thereon for the purpose of ascertaining the nature of the soil either without the consent of the occupier or one of the occupiers thereof or, without previously giving the occupier or one of the occupiers at least three days' notice in writing of his intention to do so.

(2) A notice under sub-rule (1) or under the proviso to sub-section (1) of section 24 shall be served in the manner specified in rule 39 for the service of a notice of demand.

71. At least seven days before possession of any standing crop is taken under sub-section (2) of section 24, the officer authorised under sub-section (1) of that section shall serve in the manner specified in rule 39 for the service of a notice of demand, the notice referred to in the said sub-section (2) on the occupier of the land on which the crop stands or on his representative or, if there be more than one occupier, on one of such occupiers or on the representative of such occupiers or of any one of such occupiers. Such notice shall contain the following particulars:—

(a) the settlement number of the plot on which such crop stands;

(b) the area (in square feet) from which it is proposed to cut and remove such crop; and

(c) the dates and the approximate times when possession will be taken of such crop.

The offer of compensation and the manner of assessment of damage under section 24 (3).

72. An officer authorised under sub-section (*1*) of section 24 shall not offer compensation to any person interested for any damage that may have been caused during the process of cutting and removal of crops under sub-section (*2*) of that section, if such damage can be and has been set right by him or if it is so slight that no reasonable man would claim compensation for it.

73. (*1*) If an offer made under sub-section (*3*) of section 24 is not accepted, the officer who has made it shall forthwith refer the matter to the Collector in a written report which shall state the amount of compensation offered, the nature of the damage and the amount of compensation demanded.

(*2*) After receipt of such report the Collector shall, for the purpose of assessing the value of the crop cut and the amount of the damage caused, make a summary inquiry either personally or through an officer subordinate to him other than the officer who has offered the compensation and at such inquiry any person interested who has not accepted the compensation offered shall be given an opportunity of stating his case and producing witnesses in support of it.

(*3*) If damage has been done to produce for which a price has been fixed under section 9, the Collector in assessing the amount of the damage shall take such price into consideration.

Manner of giving notice under section 25.

74. A notice under section 25 shall be served in the manner specified in rule 39 for the service of a notice of demand.

75. The officer to whom any record or document is delivered under section 25 shall give a receipt for such record or document to the person who delivers it if he removes it from the presence of such person.

Objections to notifications under section 30.

76. A notification issued under section 30 shall contain descriptions of the proposed drainage work and of the area likely to be affected by it, and shall fix a date, not less than one month from the date of the publication of such notification, by which objections may be submitted by persons interested.

Such notification shall besides being published in the *Calcutta Gazette* be also published at the offices of the Collector, District Judge, Superintendent of Police and Sub-Registrar within the area of whose jurisdiction the drainage work is proposed to be carried out.

77. Every such objection shall be submitted in writing to the Collector who, after making or causing to be made such inquiries, if any, as he thinks necessary, shall submit the objection for the decision of the Provincial Government with the record of any proceedings held by him and a report containing his recommendations on the objection.

Order for the modification of obstructions.

78. The Collector shall not issue an order under sub-section (*2*) of section 32 on any person to modify an artificial obstruction in such a manner as to prevent the retention of sufficient water on the land where the obstruction exists for the reasonable immediate needs of a paddy crop.

Procedure for determining compensation under section 36(1).

79. (*1*) A claim under section 35 shall be made in writing, shall give particulars of the damage or loss sustained and shall state the amount of compensation claimed; and it shall be signed by the claimant or his authorised agent. If the claim is submitted through a pleader, it shall be signed both by the claimant or his authorised agent and by the pleader.

Explanation.—In this sub-rule the word "pleader" includes any legal practitioner as defined in the Legal Practitioners Act, 1879.

(2) On receipt of such claim the Collector shall fix a day on which an inquiry will be held either by himself or by another officer, and, on that day or on any other day to which such inquiry has been adjourned, the claimant shall be given an opportunity to explain his case and to produce evidence in support of it.

(3) If the Collector has caused the inquiry to be made by another officer, such officer shall submit to him a report in writing, stating the facts as determined by such officer.

(4) The Collector shall thereupon, after considering any representation that has been made by the claimant, give a decision in writing as to the amount of compensation, if any, which shall be granted.

Grant of compensation under section 36.

80. In coming to a determination under sub-section (2) of section 36, regard shall be had to the following:—

(1) The Collector shall grant no compensation to the claimant for any damage which—

(a) if caused by a private person, would not render such person liable to a suit;

(b) is consequent upon the removal or modification of an obstruction in any river, stream, natural water channel or natural drainage course within the limits of any tract included in a prohibitory notification under section 6 of the Bengal Embankment Act, 1882 (Bengal Act II of 1882):

Provided that when the obstruction has been allowed on payment to the Provincial Government of a fee under the Bengal Irrigation Act, 1876, repayment of the whole or part of the fee paid may be allowed as compensation;

(c) is consequent upon the removal or modification of any obstruction in any river, stream, natural water channel or natural drainage course, if such removal or modification interferes with a right which the claimant has enjoyed for using such obstruction as a means of access to any place;

(d) is consequent upon the stoppage or diminution of any facilities for irrigation afforded by any obstruction that is removed or modified, if the Collector is satisfied that other adequate facilities for irrigation have been provided;

(e) is consequent upon a fishery being injuriously affected by the removal or modification of any obstruction that is intended or used for or in connection with fishing.

(2) If the Collector is satisfied that the removal or modification of an obstruction under section 31 has involved or will involve (a) damage to any building or (b) substantial deterioration or diminution of any supply of drinking water, he may grant compensation—

(i) in case (a), not exceeding the cost as estimated by him of the dismantling and removal to a reasonable distance of the materials of such building and of its reconstruction, and

(ii) in case (b), sufficient in his opinion to meet the cost of providing an adequate supply of drinking water of the quality not inferior to that which the claimant previously enjoyed:

Provided that he shall grant no such compensation if he is satisfied that an adequate supply of such drinking water is available within a convenient distance.

(3) When the claim is in respect of damage which (a) has been caused to a crop, or (b) is likely to result from inability to grow a crop, owing to the removal or modification of an obstruction under section 31, the Collector may grant as compensation in case (a) the value of the crop damaged as estimated by him and in case (b) six times the value as estimated by him of the average annual outturn of the land covered by the claim.

(*4*) When the claim is in respect of damages in consequence of modification, under section 32, of any artificial obstruction, the Collector may, in assessing the compensation, take into consideration the value of any increase in the average outturn from other land in the occupation of the claimant which in the opinion of the Collector will be made possible by the modification of such obstruction.

(*5*) When a claim is preferred for compensation under clause (*b*) of section 35, the Collector may, in assessing the compensation, take into consideration any increase that has accrued or is likely to accrue to the value of the land in respect of which the claim is preferred owing to the improvement work.

Reference of dispute to Court under section 36(3).

81. A reference to a Court by a Collector under sub-section (*3*) of section 36 shall contain the following particulars:—

(*i*) description and area of the land in respect of which compensation is granted,

(*ii*) names and addresses of the persons interested,

(*iii*) the grounds upon which the compensation is granted,

(*iv*) the amount of compensation determined under sub-section (*1*) of section 36, and

(*v*) the particulars of the dispute."

CENTRAL BOARD OF REVENUE.

RESOLUTION.

INCOME-TAX.

Simla, the 5th August 1939.

Depreciation rates for Income-tax purposes.

No. 63.—The Indian Income-tax (Amendment) Act, 1939, has changed the basis for calculating depreciation on business assets from the "original cost" to the "written down value". In view of the difficulties involved in working out the rates and consulting the interests affected, it was specifically provided that the changes would not take effect earlier than the 1st day of April 1940. The Central Board of Revenue proposes to introduce the change with effect from the assessments for the year beginning on 1st April 1940 and the following tentative schedule of rates is published for general consideration and criticism.

2. The existing schedule of rates was first issued in the year 1919 and although from time to time it has been brought to the notice of the Board that many of the rates were generally excessive, it has been deemed undesirable to make changes at frequent intervals. The present occasion has, therefore, been utilised to review the position in detail and the rates now proposed follow to a large extent the rates prescribed for similar assets in the United Kingdom, where the written down value basis is in operation for almost all classes of assets. In no case is the proposed rate lower than the corresponding rate in the United Kingdom (excluding the special temporary additions to the United Kingdom rates).

3. The arrangement of the proposed schedule follows the existing schedule with a view to facilitating the calculation on the new basis. Although over-all rates for particular industries have been continued, assessees have the option of claiming the higher rates of depreciation for certain individual items such as motor-cars, office equipment, electrical machinery, etc., leaving the over-all rate to be applied to the remainder of the machinery and plant.

4. Criticisms of the proposed schedule and suggestions accompanied by the evidence on which they are based should be forwarded to the Central Board of Revenue within two months from the date of this Resolution. If after considering the written comments, it appears to the Board that oral discussion on particular rates would be useful, before the rates as modified in the light of the written comments are promulgated in the form of a rule under the Income-tax Act, an opportunity will be given to the interests concerned for such discussions either at important centres or at an all-India conference.

NOTIFICATION.

No. 852L.—21st August 1939.—The following Act of the Bengal Legislature, having been assented to in His Majesty's name by the Governor, is hereby published for general information.

Bengal Act XIII of 1939.

THE BENGAL TENANCY (SECOND AMENDMENT) ACT, 1939.

[*Passed by the Bengal Legislature.*]

[Assent of the Governor was first published in the *Calcutta Gazette* of the 24th August 1939.]

An Act further to amend section 52 of the Bengal Tenancy Act, 1885.

WHEREAS it is expedient further to amend section 52 of the Bengal Tenancy Act, 1885 in the manner hereinafter appearing; VIII of 1885.

It is hereby enacted as follows :—

Short title.

1. This Act may be called the Bengal Tenancy (Second Amendment) Act, 1939.

Amendment of section 52 of Act VIII of 1885.

2. In section 52 of the Bengal Tenancy Act, 1885—

(*1*) in clause (*a*) of sub-section (*1*), after the words "without any reduction of the rent being made" the following proviso shall be inserted, namely :—

"Provided that no Court shall decree any addition of rent under this clause unless it is satisfied that there has in fact been an increase in the actual area of the tenure or holding since the rent previously paid was settled;" and

(*2*) after sub-section (*1*) the following sub-sections shall be inserted, namely :—

"(*1A*) In determining in a suit under clause (*a*) of sub-section (*1*) whether there has been an increase in the actual area of the tenure or holding, the Court shall inquire as to whether the present areas of other tenures or holdings in the vicinity which were settled at or about the same time or on the same standard of measurement as the tenure or holding in suit, show increases in area compared with the area originally settled similar to that alleged in respect of the tenure or holding in suit: if such increases are found to exist, it shall be presumed (notwithstanding anything contained in any contract) that there has in fact been no increase in the actual area of the tenure or holding in suit since the rent previously paid was settled.

(*1B*) When in a suit an increase in the actual area of the tenure or holding is sought to be proved under clause (*a*) of sub-section (*1*), the Court shall inquire as to whether the present area of the tenure or holding in suit is within the same defined boundaries as set forth in the *kabuliyat* or *patta* at the inception of the tenancy; and if the Court finds that the present area of the tenure or holding in suit is within such boundaries no increase of rent shall be granted on account of increase of area :

Provided that the provisions of this sub-section shall not apply to any suit in respect of any tenure or holding of which any portion of the boundaries set forth in the *kabuliyat* or the *patta* comprises a river or sea or land held *khas* by the landlord or the Crown."

The Bengal Tenancy (Second Amendment) Act, 1939.

(*Section 3.*)

Application.

3. (*1*) Notwithstanding anything contained in any other law—

(*a*) the provisions of section 52 of the Bengal Tenancy Act, 1885 as amended by this Act shall apply to all suits instituted thereunder on or after the date of the commencement of this Act, and also, subject to such conditions as may be prescribed, to all suits under clause (*a*) of sub-section (*1*) of that section which are pending on the said date, and VIII of 1885.

(*b*) if a decree has been passed before the commencement of this Act in a suit under the said clause instituted on or after the twenty-seventh day of August 1937, the Court shall, on application accompanied by the prescribed fee and made within one year from the commencement of this Act by a tenant against whom such decree has been passed, set aside the decree and restore and rehear the suit in the prescribed manner and in accordance with the provisions of the said section as amended by this Act.

(*2*) In this section "prescribed" means prescribed by rules made by the Provincial Government hereunder.

By order of the Governor,

E. B. H. BAKER,

Secy. to the Govt. of Bengal.

RESOLUTION—No. 985L.S.-G.

Calcutta, the 21st August 1939.

READ—

The reports of the Commissioners of Divisions on the working of district and local boards in Bengal during the year 1937-38.

1. **District Boards.**—During the year under review there was no change in the total number (26) of district boards in the province. The district boards of Jessore and Nadia were reconstituted during the year. Of the total number of 695 members, 446 were elected and 249 including 93 officials were appointed.

With the exception of the district board of Darjeeling, which continued to be presided over by an official Chairman in the person of the Deputy Commissioner appointed by Government, all the district boards in the Province elected their own Chairmen, the right to elect a Chairman having been restored to the Bankura and Midnapore district boards.

All the district boards, with the exception of Midnapore and Darjeeling, held at least one meeting every month. The total number of meetings held by all the boards increased from 376 to 390 of which 12 were adjourned, as against 23 in the preceding year; and 3 proved abortive for want of a quorum. The average percentage of attendance of all members at each meeting was the highest in the district board of Nadia (88·4), which was closely followed by the district boards of Faridpur (84·36), Dinajpur (83·04) and Howrah (82·90). On the other hand comparatively low percentages of attendance were recorded in Murshidabad (69·0), Midnapore (72·2) and Dacca (73·83), the lowest, viz., 55·90 per cent. being in Malda. The average percentage of attendance of official members was the highest in Hooghly (97·0) and lowest in Bogra (39·47).

2. **Local Boards.**—The number of local boards was 84 as in the preceding year; and all of them, except four, were presided over by non-official Chairmen. The total number of members was 1,393 consisting of 79 officials and 1,314 non-officials.

With the gradual development and expansion of the system of union boards throughout the province, the idea that the local boards, with their present limited powers and resources, have outlived their utility as intermediary institutions in the scheme of local self-government has been fast gaining ground and, during the year under report, several district boards moved Government to abolish the local boards in their respective jurisdictions. As a result of this, the local boards in the districts of Birbhum, Dacca, Chittagong, Noakhali and Rangpur were abolished with effect from the year 1938-39, while orders have also been issued for the abolition of the local boards in the districts of Faridpur, Bakarganj and Howrah on the expiry of their present terms.

3. **Union Committees.**—The total number of union committees in the province was 5. Only 2 of them, viz., the Hazipur union committee in the 24-Parganas and the Takdah union committee in the Darjeeling district worked during the year under review and the working of the latter is reported to have been satisfactory. The two union committees at Mograhat and Mollarchak in the 24-Parganas were replaced by union boards and the union committee at Alipur Duars in the district of Jalpaiguri is reported not to have functioned at all during the year under review.

4. **Financial features.**—The total receipts during the year, excluding the opening balances, amounted to Rs. 176·68 lakhs representing a decrease of Rs. 12·07 lakhs as compared with the preceding year's receipts. The decrease in the

total receipts was mainly due to a decrease under "Land Revenue" from Rs. 58,122 to Rs. 17,556, under "Local rates" from Rs. 95·16 lakhs to Rs. 93·05 lakhs, under "Interest" from Rs. 2·34 lakhs to Rs. 1·94 lakhs, under "Police" from Rs. 1·16 lakhs to Rs. 1·11 lakhs, under "Stationery and Printing" from Rs. 11,285 to Rs. 7,136, under "Miscellaneous" from Rs. 6·64 lakhs to Rs. 6·59 lakhs and under "Railways" from Rs. 69,778 to Rs. 68,368. There was, however, an increase in the receipts under "Education" from Rs. 11·71 lakhs to Rs. 11·75 lakhs, under "Medical" from Rs. 16·75 lakhs to Rs. 19·41 lakhs, under "Scientific and Minor Department" from Rs. 31,037 to Rs. 36,017, under "Irrigation and Minor Works" from Rs. 31,366 to Rs. 40,313, under "Civil Works" from Rs. 25·18 lakhs to Rs. 26·14 lakhs and under "Law and Justice" from Rs. 16,878 to Rs. 17,572.

The total expenditure chargeable to current income fell from Rs. 168·01 lakhs to Rs. 162·63 lakhs, representing a decrease of about Rs. 5·38 lakhs from the previous year's figure. This decrease in expenditure was due mainly to the boards having spent Rs. 27,963 only on Famine Relief as against an expenditure of Rs. 8·16 lakhs incurred in the previous year. There was, however, a rise in expenditure from Rs. 7·48 lakhs to Rs. 7·52 lakhs under "Administration," from Rs. 29·33 lakhs to Rs. 29·87 lakhs under "Education", from Rs. 40·96 lakhs to Rs. 42·43 lakhs under "Medical", from Rs. 2·69 lakhs to Rs. 2·78 lakhs under "Scientific and Minor Departments", from Rs. 2·49 lakhs to Rs. 2·64 lakhs under "Superannuation and Compassionate allowance," from Rs. 43,197 to Rs. 47,713 under "Stationery and Printing" and from Rs. 73·34 lakhs to Rs. 74·28 lakhs under "Civil Works." The credit balance at the close of the year was Rs. 59·40 lakhs as against Rs. 63·67 lakhs in the preceding year.

5. **Education.**—The income and expenditure under this head amounted to Rs. 11·75 lakhs and Rs. 29·87 lakhs against Rs. 11·71 lakhs and Rs. 29·33 lakhs, respectively, in the preceding year. The increase in the income was due principally to the increased Government contribution for primary education.

The number of primary schools maintained or aided by district boards was 28,695 with 1,146,350 pupils of whom 254,058 were girls. The corresponding figures for the previous year were 28,940 schools with 1,134,681 pupils including 259,981 girls. It is noticeable that while the number of schools decreased, the number of pupils increased, though the number of girls attending school decreased appreciably. Out of the total number, 755 upper primary schools with 42,193 boys and 3,807 girls and 1,088 lower primary schools with 52,014 boys and 7,214 girls were maintained by the district boards. The remaining 11,692 upper primary schools with 424,919 boys and 108,832 girls together with 15,160 lower primary schools attended by 373,166 boys and 134,205 girls were aided by them. The total expenditure of the district boards on primary education including the amount spent out of their own funds, was Rs. 17,04,319 showing an increase of Rs. 22,947 over the preceding year's figures.

The total number of middle English schools maintained and aided by district boards was 43 and 1,259, respectively, with a total number of 124,117 students, indicating an increase of 7,241 students, though the number of aided middle English schools decreased from 1,275 to 1,259. No high English school was maintained by any district board, but 15 such schools with a total number of 3,420 students, were aided by them. These included 1 girls' school with 188 students.

The district boards continued to maintain or aid, by stipends or otherwise, the existing technical schools. The district boards of Burdwan, Khulna and Mymensingh maintained technical schools at a cost of Rs. 8,061, Rs. 13,173 and Rs. 24,764, respectively. Almost all the district boards rendered substantial aids to muktabs and tolls.

6. **Public Health and Medical Relief.**—In the year 1937-38 the district boards showed an appreciable advance in the sphere of rural medical relief. The head "Medical" however includes the figures of income and expenditure on public health activities as well as expenditure on sanitation. The majority of the district boards participated in the increase recorded. The gross receipts under this head during the year was Rs. 19·41 lakhs against Rs. 16·75 lakhs in the preceding year. The expenditure amounted to Rs. 42·43 lakhs showing an increase of Rs. 1·47 lakhs. Government's contribution during the year

towards promoting the public health and medical activities of district boards exceeded that of the previous year by Rs. 2·57 lakhs.

The total number of dispensaries maintained by district boards rose from 675 to 691 and the expenditure on them rose from Rs. 12,78,758 to Rs. 12,80,649. The number of dispensaries aided by the boards also increased from 498 to 575. These figures included a number of homeopathic and a few ayurvedic and unani dispensaries.

The state aid given to the thana and village dispensaries under the scheme of subsidies the amount of which was augmented during the year of review was of very great help in assisting the local bodies in maintaining these cheap type dispensaries. All dispensaries recommended by the district board and the local authorities as eligible to the grant were accommodated. The allotment made from the Central Government's grant for rural uplift for provision for capital expenditure towards establishment of dispensaries by union boards or group of union boards resulted in a large increase in the number of village dispensaries. This grant proved exceedingly popular and with very few exceptions the union boards and the district boards enthusiastically participated in the scheme.

An interesting event was the contribution made by the Pabna district board towards installation of an X-ray plant in the Sadar Hospital. The district board of Darjeeling also made a contribution for the reservation of two beds for patients from rural areas in the Tuberculosis Hospital in Darjeeling.

The scheme of decentralised anti-rabic system continued to work satisfactorily and such treatment was given in many rural district board dispensaries in addition to the institutions at district and subdivisional headquarters.

The public health activities of the district boards consisted as usual in combating the outbreak of epidemic diseases by preventive and curative measures. The education of public opinion in the general principles of personal, communal and environmental hygiene and attempts to rouse the health consciousness of the people by means of lantern lectures, health talks, health exhibitions, maternity and child welfare shows and cinematograph shows formed an interesting feature of the programme of almost all the boards. In several districts school hygiene work was taken up and school boys examined.

Smallpox raged in an epidemic form in the districts of Burdwan, Birbhum, Bankura, Dacca and Malda. Epidemics of cholera broke out in Khulna and Bakarganj. In Hooghly, Chittagong, Noakhali and Pabna the outbreak of smallpox synchronised with an epidemic of cholera which raged for a considerable time. Prompt arrangements were made to combat the epidemics. Temporary regulations under the Epidemic Diseases Act were promulgated and the permanent health staff of the district boards were augmented by a large temporary staff. Officers of the Public Health Department were freely lent. They visited the affected areas and guided the campaign. Vaccines were distributed free by Government and mass vaccination was carried out. In Bakarganj, free and compulsory vaccination system worked very satisfactorily and became popular. In spite of all efforts however, there was serious loss of life before the epidemics could be completely brought under control. In Pabna the epidemic had spread so rapidly that it defied the best efforts of the district board and took a large toll of human lives. Both cholera and smallpox were prevalent in a sporadic form in some other districts also. But the boards took prompt action and their health staffs were fortunately able to keep the epidemics under control.

The campaign against malaria and kala-azar, the two major scourges in most of the districts of this province was carried on with energy by the district boards, Government making the usual subventions. The services of the anti-malaria societies were of much assistance and were appreciated by the people as evidenced by the increasingly large number of such societies formed in almost all districts for carrying on the campaign against malaria.

Treatment centres for kala-azar were maintained by all the boards in the areas affected by the disease. As usual, kala-azar was specially prevalent in the district of Rangpur which borders on the province of Assam. In that district, 56 kala-azar centres worked throughout the year. In the adjoining district of Bogra, 18 special treatment centres and 13 subsidised centres were opened. Forty-two kala-azar centres were established in Rajshahi. In Pabna, 18 kala-azar and malaria centres were opened for a period

of 3½ months. In Malda 3 whole-time and 16 temporary doctors worked throughout the year under report. The Dinajpur district board maintained 11 special centres besides providing facilities for treatment in the existing district board dispensaries. The board also undertook an intensive campaign in Pirganj thana where the mortality was reported to be the highest. Besides these districts, Jessore, Mymensingh and Dacca maintained 8, 24 and 13 centres, respectively. In the Chittagong Division, the Chittagong district board opened 6 new centres and 12 "groups" and Noakhali maintained 11 centres with 22 sub-centres. Kala-azar specifics were distributed free by Government.

In spite of these measures kala-azar is reported to be definitely on the increase, indicating that more organized and concerted measures are urgently necessary for the stamping out of the disease. The matter is engaging the attention of Government.

The problem of malaria is perhaps the gravest in the province. Government made the usual contribution towards execution of local minor anti-malarial measures by union boards and anti-malarial societies. These local measures consisted of clearing and filling up of insanitary tanks and ditches and treating them with kerosine, cutting down jungles, etc.

The campaign of quininization was carried out by the district boards and the grant made by Government was increased during the year. The district boards also deputed doctors to the affected areas and fever centres were opened where necessary. Travelling fever dispensaries also afforded relief in many districts. It is reported that in 70 villages in Midnapore anti-malarial operations were carried out by union boards and societies with satisfactory results.

Twelve district boards continued to maintain centres for specialised treatment of leprosy, while certain other boards contributed towards the maintenance of leprosy clinics in their respective areas. The district board of Bankura did good work in maintaining leprosy clinics.

The problem of the control of adulteration of food stuffs is reported to have received increasing attention. The figures of prosecution of delinquents and of the results of analysis of food stuffs are not, however, complete and it cannot be said that any appreciable impression has been made on the prevailing practice of adulteration of all kinds of food stuffs.

No new Public Health Laboratory was opened by any district board during the year. The district board of Murshidabad decided to open such a Laboratory but the scheme did not materialise for lack of accommodation.

7. **Veterinary charges.**—During the year under review the income under this head increased from Rs. 3,065 to Rs. 3,619, but the expenditure fell from Rs. 1,90,822 to Rs. 1,89,872.

The district boards in the Burdwan Division with the exception of Hooghly and all the district boards in the Rajshahi Division maintained stud bulls. In Jalpaiguri, 30 stud bulls were supplied to selected union boards by the Deputy Commissioner out of the Government of India's grant and in Malda 100 stud bulls were supplied out of the same grant, but 6 of them are reported to have died during the year under review.

Some district boards maintained veterinary dispensaries and hospitals. In course of their tours, the itinerant veterinary assistant surgeons employed by these boards imparted instruction relating to the control of the spread of contagious cattle diseases and the expansion and improvement of fodder cultivation. Some of them carried on propaganda with the help of magic lanterns. In Darjeeling, the veterinary work was carried on with good results in close co-operation with the Darjeeling Himalayan Society for the prevention of cruelty to animals.

Cattle epidemics broke out in certain parts of the districts of Malda and Pabna. There were altogether 47 outbreaks in Malda and 98 in Pabna. The veterinary assistant surgeons of both these district boards promptly attended to the cases and prevented the spread of the disease by means of inoculation. No outbreak of cattle disease in an epidemic form was reported from any other parts of the Province.

8. **Civil Works.**—The income under this head rose from Rs. 25·18 lakhs to Rs. 26·14 lakhs. There was also a corresponding increase in expenditure from Rs. 73·34 lakhs to Rs. 74·28 lakhs, a substantial portion of this expenditure, viz., Rs. 45·14 lakhs was incurred on "Communications". This figure, however, represents a decrease of Rs. 0·18

lakh from that of the previous year (Rs. 45·32 lakhs). The actual expenditure incurred by the district boards during the year on "Original Works" was Rs. 14·49 lakhs against Rs. 15·76 lakhs, and on "Repairs" Rs. 31·65 lakhs against Rs. 29·56 lakhs, in the previous year.

The expenditure on "Civil Works" incurred by the district boards in the Burdwan Division amounted to Rs. 16·05 lakhs as against Rs. 15·38 lakhs in the preceding year, representing 40·9 per cent. of their total expenditure during the year under review. The increase was shared by the district boards of Birbhum, Midnapore and Hooghly, but there was a corresponding decrease in Burdwan, Bankura and Howrah.

In the Presidency Division, the expenditure on "Civil Works" rose from Rs. 15·16 lakhs to Rs. 20·14 lakhs showing an increase of Rs. 4·98 lakhs. The increase was shared by all the district boards except that of Khulna where there was a decrease of Rs. 61,137 owing to the fact that a smaller allotment was made in the budget in expectation of a loan of Rs. 50,000 which was received too late to be spent during the year. The largest increase (Rs. 2,83,385) was shown by Jessore. Larger expenditure on communications including improvement of the Jhenidah-Magura Road out of the road development fund and on water-supply and drainage, contributed to this phenomenal increase. The increase of Rs. 1,23,403 in 24-Parganas was mainly due to the increased expenditure of Rs. 80,969 from the Motor Vehicles Tax grant and the expenditure of Rs. 22,514 for the Mirpur Khal mostly met from the subventions received from the Government of India's rural uplift grant as well as to the payment of Rs. 29,614 to the Baraset-Basirhat Light Railway on account of the guaranteed compensation.

The expenditure on "Communications" in the Dacca Division showed a decrease of Rs. 2·17 lakhs. The expenditure on "Original Works" rose in all the districts except Mymensingh where there was a decrease of Rs. 1,75,789. The expenditure on "Repairs" increased in Dacca and Bakarganj but decreased in Mymensingh and Faridpur. The Dacca district board spent Rs. 46,420 received from the Motor Vehicles Tax Fund, on the construction and reconstruction of bridges on important roads so as to facilitate motor traffic on them.

In the Chittagong Division, the total expenditure under this head rose from Rs. 6·03 lakhs to Rs. 6·22 lakhs.

The total expenditure under the head "Civil Works" in the Rajshahi Division amounted to Rs. 17·00 lakhs against Rs. 18·84 lakhs in the preceding year, showing a decrease of nearly Rs. 1·84 lakhs. The outlay under "Communication—Original Works" showed a decrease of about Rs. 1·22 lakhs, while that under "Communications—Repairs" increased by Rs. 8,709 only. The district boards of Rajshahi, Dinajpur, Jalpaiguri, Pabna, Malda and Darjeeling shared in the decrease while an increase occurred in Rangpur and Bogra. The increase was marked in Rangpur (Rs. 1·11 lakhs), being due to satisfactory collection of cesses. The district boards incurred larger expenditure on repairs than on original works.

9. **Water-supply.**—A total sum of Rs. 9·07 lakhs was spent under this head during the year under review, as against Rs. 9·41 lakhs in the preceding year showing a decrease of Rs. ·34 lakh. Of the total amount, Rs. 7·66 lakhs was spent on original works and Rs. 1·40 lakhs on repairs.

The total expenditure on water-supply in the Burdwan Division, rose from Rs. 2·22 lakhs to Rs. 2·36 lakhs of which Rs. 1·89 lakhs was spent on original works and Rs. 47,007 on repairs. The increase was shared by the district boards of Birbhum, Bankura and Midnapore, while the expenditure decreased in the other three districts of the division. The Burdwan district board spent a sum of Rs. 23,092 against Rs. 36,791 in the preceding year, on excavating 11 masonry wells, deepening 14 old completed wells and sinking 2 ring wells and 119 tube-wells. In Birbhum, the board's expenditure on original water-supply works and repairs amounted to Rs. 46,562 against Rs. 43,949 in the previous year. The district board in pursuance of its water-supply scheme sank 150 tube-wells, 54 masonry wells and 68 cement ring wells. In Midnapore, the total expenditure under this head was Rs. 87,845 as against Rs. 71,918 in the preceding year. The local boards sank 174 tube-wells, and 15 masonry wells. At the end of the year, there were 1,350 tube-wells, 583 masonry wells, 48 pottery wells and 405 tanks under the local boards. In Hooghly, there were about 5,000 tube-wells, 200 ring wells 122 masonry wells and 175

reserve tanks. It is reported that the problem of supply of drinking water has been solved in the district to an appreciable extent and that there is hardly any village in the district where there is not at least one efficient tube-well. In Howrah, the board spent a sum of Rs. 14,236 under "Water Supply—New Works" against Rs. 14,599 in the preceding year. Eighty-seven tube-wells were resunk with old and new materials during the year under review.

In the Presidency Division, there was an increase in expenditure of Rs. 47,630 under this head during the year. Jessore again showed a large increase in expenditure both on original and repair works. The original works accounted for an increase of Rs. 81,070 and repair works for Rs. 12,847. This district board's expenditure on water-supply during the previous year was however extremely low, viz., Rs. 4,317 only. The expenditure incurred by the Nadia district board on original works during 1937-38 exceeded that for the previous year by Rs. 20,002, while its expenditure on repair works exceeded the previous year's figure by Rs. 2,422. The increase under the former head was due to works which could not be taken up during the preceding year having been undertaken during the year under review. Repairs to and silt-clearing of many unserviceable masonry wells and the necessity of putting up and repairing many tube-wells were responsible for the increase under the latter head.

In the Dacca Division, the expenditure on water-supply decreased from Rs. 3·22 lakhs to Rs. 2·45 lakhs. Of the total outlay Rs. 2·07 lakhs was on account of "Original Works" and Rs. 38,259 only for repairs. The expenditure on both "Original Works" and "Repairs" increased in Dacca and Faridpur while it decreased in Mymensingh and Bakarganj. In Dacca, the cost of maintenance of the Munshiganj waterworks was Rs. 2,038 and that of running the Nawab Yusuff waterworks at Nangalbund during the mela days was Rs. 954. The district board of Mymensingh sank 332 tube-wells, 120 masonry wells, 140 ferro-concrete wells and excavated 3 tanks. In Bakarganj only 1 new tank was excavated owing to the fact that sites for other tanks could not be obtained free. There were altogether 369 reserve tanks under the board's direct control excluding 232 excavated by the Colonization and Khas Mahal Departments and union boards with the help of contributions from the district board.

On water-supply and waterworks, the district boards of Chittagong, Tippera and Noakhali spent Rs. 3,331, Rs. 36,369 and Rs. 7,482 respectively, during the year as against Rs. 4,004, Rs. 37,297 and Rs. 1,299 in the previous year. The Chittagong district board spent an insignificant amount on water-supply owing to the fact that they had to abandon the loan scheme under which loans were granted to private persons for excavating tanks. It is reported that some legal defect was found in the form of the agreements as a consequence of which the parties raised difficulties in making regular repayments. The Board, therefore, decided not to lend out further amounts under the loan scheme. The problem of good drinking water was acute throughout the district of Noakhali, especially in the char areas and scarcity of pure drinking water was the cause of many diseases and of epidemics of cholera.

In the Rajshahi Division, the total outlay on waterworks decreased from Rs. 1·53 lakhs to Rs. 1·36 lakhs. The increase in Bogra and decrease in Pabna and Rajshahi were pronounced. In Rajshahi 2 reinforced concrete ring wells, 15 tube-wells, 1 masonry well, 10 pottery ring wells set in lime mortar and plastered with cement mortar were completed and the construction of one masonry well was in progress. The local boards completed 8 reinforced concrete ring wells, 17 tube-wells and 31 pottery wells. In Dinajpur 14 ring wells and 11 tube-wells were sunk. Two tube-well mistries were appointed by the board to carry out repairs to the tube-wells. In Jalpaiguri, a considerable number of wells was sunk. The district board of Rangpur constructed 21 tube-wells, 56 cement concrete wells, 16 masonry wells and 4 ring wells. The Bogra district board paid particular attention to the sinking of tube-wells on which a sum of Rs. 42,770 was spent. It is reported that much of the money spent in the past in this district on tube-wells had been wasted as many wells had proved defective or were sunk at unsuitable places. In Pabna, 62 masonry wells and 32 wells were completed during the year and 73 masonry wells and 9 wells were under construction. The heavy decrease in expenditure on water-supply in Pabna has not been explained

although the water scarcity in the district was very acute. In Malda, 18 masonry wells were completed during the year. A comprehensive scheme of water-supply to be financed from a loan sanctioned by Government was prepared during the year of review. In Darjeeling, a Government grant for the sinking of wells in the Terai Government estates was spent by the Siliguri local board in consultation with the Subdivisional Officer, Siliguri.

10. **General Remarks.**—Government have read with interest the reports of the Commissioners of Divisions. These provide ample proof of the wide range of activities of the district boards in various directions of public utility. More than one Commissioner have pertinently pointed to the fact that in their natural anxiety to explore spectacular fields of activity most of the district boards have continued to neglect their roads and communications in a way that is likely to lead to grave consequences. Government would like to impress on the district boards the necessity of paying adequate and balanced attention on the maintenance and improvement of roads and communications in accordance with a definite programme particularly in view of their great importance in the development of the economic resources of the rural areas.

The grave problem of rural water-supply appears to have received increasing attention during the year under review. The State grant was largely increased and funds were also made available from the Central Government rural uplift grant. Lack of a programme and lack of co-ordination have however impeded progress. This problem can only be solved on a comprehensive programme drawn up and executed in complete co-operation between Government, the local bodies and the public. The Ministry has this question under anxious consideration with a view to reaching a solution in the near future.

The skeleton rural health organisation maintained practically entirely with subventions from Government, is reported to have done good work in controlling epidemic diseases and in carrying on a moderate amount of health propaganda. Prevention of disease and maintenance of national health is a vast and complex problem which can only be approached by means of a comprehensive rural health organisation working on the basis of moderate-sized health units in charge of medical officers of health aided by a trained public health staff. A tentative scheme on these lines which has been framed by the Director of Public Health is now being considered by Government. Government regret to note, by no means for the first time, that while district boards showed zeal and energy in many spheres of rural well being, there has been little improvement in the standard of their financial administration. The same types of irregularities, some serious and some technical, continue to recur year after year, revealing a lack of control and supervision over accounts. Government hope that the district boards will in the interests of efficient administration ensure the observance of the simple rules relating to their financial administration so as to avoid the defects and irregularities disclosed in the audit reports and that they will exercise adequate supervision over the staff.

The services rendered by the following gentlemen have been specially mentioned by the local officers and Government take this opportunity of thanking them and all others who have rendered active assistance in the administration of Local Self-Government during the year under review:—

Resolution on the working of the Union Boards in Bengal during the year 1937-38.

GOVERNMENT OF BENGAL.

Department of Public Health and Local Self-Government.

Local Self-Government.

RESOLUTION—No. 986L.S.-G.

Calcutta, the 21st August 1939.

READ—

The reports of the Commissioners of Divisions on the working of the union boards in Bengal during the year 1937-38.

The total number of union boards in the Province increased from 4,895 to 5,044, and of the 154 new boards brought into existence during the year under review, 100 were established in the district of Midnapore, 10 in the district of the 24-Parganas, 2 in Nadia, 31 in Mymensingh, 4 in Faridpur and 7 in Bakarganj. In Dacca 12 unions were re-arranged to form 8 unions and 1 union in the Bhola subdivision of Bakarganj was abolished owing to erosion of the river.

2. **Franchise.**—The number of voters of union boards rose from 3,855,000 to 4,442,000 owing largely to the extension of the franchise under the amended Village Self-Government Act, and to some extent, to the establishment of new boards mentioned above. The increase was shared by all the Divisions but was very pronounced in the Dacca and Burdwan Divisions where the number rose by nearly 140,000 and 103,000 respectively. The total number of members also increased from 43,870 to 45,262 and consisted of 20,195 Hindus, 24,753 Muhammadans and 314 belonging to other communities.

All the elections, held during the year, passed off smoothly and evoked not only considerable rivalry among the members but a keen interest among the rate-payers as well.

3. **Finance.**—The total income of the union boards excluding opening balances rose from Rs. 98·03 lakhs to Rs. 103·29 lakhs during the year under review. The receipt from the union rate increased from Rs. 73·12 lakhs to Rs. 76·82 lakhs, out of which Rs. 16·52 lakhs represented the rate imposed under section 37(*b*) of the Village Self-Government Act and Rs. 60·30 lakhs represented the chaukidari rates under section 37(*a*) of the Act as against Rs. 15·31 lakhs and Rs. 57·81 lakhs, respectively, in the preceding year. The increase occurred in almost all the items of income of the union boards, the most noticeable increase being under "Contributions" from Rs. 9·35 lakhs to Rs. 10·77 lakhs, of which Rs. 2·09 lakhs as against Rs. 1·84 lakhs in the previous year, represented contributions from district boards under section 33.

The total expenditure of union boards increased from Rs. 96·67 lakhs to Rs. 102·91 lakhs of which a sum of Rs. 50·70 lakhs or about 49·25 per cent. of the total expenditure was spent on the salaries and equipment of chaukidars and dafadars. The boards spent, during the year under review, a sum of Rs. 7·57 lakhs on the construction and maintenance of village roads, Rs. 9·95 lakhs on water-supply of which Rs. 8·91 lakhs represented original works; Rs. 3·07 lakhs on drainage, conservancy and other sanitary measures, Rs. 3·21 lakhs on primary education and Rs. 3·0 lakhs on medical relief. The outstanding increases in expenditure on works of public utility were Rs. 90,000 on roads, Rs. 1·47 lakhs on water-supply, Rs. 41,000 on sanitation, Rs 40,000 on medical relief and Rs. 12,000 on primary education.

The audit of the union board accounts was carried on, as usual,

by Circle Officers and in certain areas with the help of Debt Settlement Officers. No serious irregularities or defalcation came to light except one in the district of Pabna where the President of a union board had misappropriated money belonging to the union fund but made good the amount and resigned his Presidentship after criminal proceedings had been instituted against him.

4. **Activities of the Union Boards.** —(*i*) *Communications-* — The total expenditure on the construction and maintenance of village roads rose from Rs. 6·66 lakhs to Rs. 7·57 lakhs. The union boards in all the four districts of the Dacca Division spent large sums on communications. As in previous years the union boards of Bakarganj were responsible for the largest expenditure, viz., Rs. 72,300 of which Rs. 46,800 was spent on original works. In other Divisions, the districts where union boards spent comparatively large amounts under this head, were Dinajpur (Rs. 43,200), Nadia (Rs. 41,000), Burdwan (Rs. 38,300) and Tippera (Rs. 37,600).

(*ii*) *Water-supply.* — The total amount spent by the union boards on water-supply increased from Rs. 8·48 lakhs to Rs. 9·95 lakhs. As in the previous years, the union boards of the Burdwan district did useful work in co-operation with the district board for the improvement of water-supply in rural areas and spent Rs. 57,543 as against Rs. 49,807 in the preceding year, for this purpose. The major portion of this amount (viz., Rs. 42,465) represented expenditure on the sinking of tube-wells which represented one-third of the cost of sinking the wells, the remaining two-thirds being contributed by the district board. The union boards of Hooghly spent a sum of Rs. 75,320 on water-supply against Rs. 68,663 in the preceding year.

In the Dacca Division, the expenditure under this head increased from Rs. 2·93 lakhs to Rs. 3·16 lakhs, the union boards of Mymensingh and Dacca again spending the largest amounts, viz., Rs. 1,31,107 and Rs. 92,699, respectively. The union boards in Mymensingh spent Rs. 1,25,065 and those in Dacca spent Rs. 83,108 on original works during the year.

In the Chittagong Division, the union boards of Tippera maintained their high standard of expenditure under this head and spent Rs. 72,989 on original water-supply works and Rs. 4,225 on repairs.

In the Rajshahi Division, the union boards in all the districts except Jalpaiguri spent large sums on water-supply and the total expenditure under this head increased from Rs. 2·01 lakhs to Rs. 2·32 lakhs. It has been reported that all the tube-wells sunk by the district board of Bogra were transferred to the union boards for maintenance without adequate grants being made for the purpose. The Divisional Commissioner has reported that he is trying to induce the district board to make the necessary grants to the union boards in this connection. The district boards have a definite responsibility in the matter of maintenance of sources of water-supply in the district and they should not lightly pass on the responsibility to smaller bodies like the union boards whose resources are of an extremely limited character. The district board of Bogra have in recent years sunk a large number of tube-wells and it is obvious that unless the Board accepts responsibility for their maintenance the money spent would be very largely wasted. Government trust, therefore, that this Board will take necessary action to ensure the proper maintenance of the wells.

(*iii*) *Public Health.*—The total expenditure by the union boards on sanitation, including drainage and conservancy, rose from Rs. 2·66 lakhs to Rs. 3·07 lakhs during the year under review. The union boards of Birbhum and Howrah spent Rs. 14,800 and Rs. 16,500, respectively, on conservancy and other sanitary measures, while those of Khulna spent Rs. 21,000 under this head. Rupees 23,300 and Rs. 15,200 were, respectively, spent by the union boards of Faridpur and Noakhali, for the improvement of sanitation and conservancy while the union boards of Dinajpur and Rangpur spent Rs. 15,600 and Rs. 16,600, respectively, for this purpose. The reports of the Divisional Commissioners do not

contain any detailed account of the activities of the union boards in regard to public health; but it is evident from the figures supplied that the union boards generally took a keen interest in rural sanitation and public health within the scope of their limited resources. In order to cope with the growing menace of leprosy, some of the union boards in the Bankura district spent money for the construction of sheds for use as leper clinics. It is reported that the union boards did all they could to assist the district board in this matter. In Hooghly, some of the union boards did excellent work in connection with the "clean village competition". A large number of moribund anti-malarial societies were revived and the union boards issued notices under section 27 of the Act for the clearance of insanitary surroundings. It is gratifying to note that the Srirampur union board in the Tamluk subdivision of the Midnapore district organised voluntary labour with the help of the local Rural Reconstruction Societies for the re-excavation of the Hasuakhali Khal covering a length of 4½ miles.

A notable feature in the working of the union boards in the Chittagong Division was the improvement effected in irrigation and drainage. The re-excavation of the Domkhali Khal in Chittagong was completed by the voluntary labour of 4,000, people. Khals were re-excavated in many other unions also. Substantial local contributions were made by several union boards for the re-excavation of some important khals with the help of the rual development grant. In Tippera, the progress towards the eradication of water hyacinth was well-maintained. Union boards assisted in carrying out local anti-malarial works by means of the grant made by Government through the district board.

Some union boards maintained regular conservancy arrangements in their respective areas, the most prominent among them being the Naogaon and Siliguri union boards in the Rajshahi Division which virtually performed the functions of municipalities in the matter of conservancy and spent Rs. 4,814 and Rs. 3,555, respectively, for this purpose. Besides these, 2 union boards in Rajshahi, 5 in Dinajpur, 3 each in Rangpur, Bogra and Pabna, continued to maintain arrangements for conservancy and one union board in Jalpaiguri started conservancy work during the year. The Siliguri union board took over the management of the conservancy of the Siliguri hat from the administrators of the Darjeeling Improvement Fund.

The union boards in Chittagong spent on works of public utility, including conservancy, a sum of Rs. 70,598 as compared with Rs. 40,824 in the preceding year. The union boards at Laksam and Hajiganj in Tippera maintained conservancy arrangements. Generally speaking the union boards paid considerable attention to the conservancy.

(*iv*) *Medical Relief.*—An expenditure of Rs. 3·00 lakhs as against Rs. 2·60 lakhs in the previous year was incurred by the union boards during the year under review in the establishment and maintenance of village dispensaries and the provision of medical relief in rural areas. Eight village dispensaries were established in the Jalpaiguri district with the help of the Government of India's Rural Uplift Grant. As in the preceding year, several groups of two or more union boards in Rangpur maintained joint dispensaries and the union board of Mogulhat maintained a dispensary at its own cost. Fifteen union board dispensaries were maintained in Bogra. Four union boards in Pabna maintained charitable dispensaries at their own cost, 6 boards contributed towards dispensaries subsidised by the district board and 4 union boards maintained joint dispensaries. In Maldah, 9 dispensaries were maintained either singly or jointly by union boards and the charitable dispensary started by the Gopalganj union board in the previous year received recognition of the district board during the year under review. Two dispensaries in Rajshahi and a joint dispensary in Dinajpur were started by the union boards during the year. Five new dispensaries were started by the union baords in Hooghly.

The allotment made from the Government of India Rural Uplift Grant for grants-in-aid towards establishment of union board dispensaries gave

great impetus towards improvement of medical relief in rural areas and resulted in a marked increase in the number of dispensaries maintained by union boards or groups of union boards all over the Province.

The increased grant made by Government towards maintenance of thana and village dispensaries proved to be of great assistance to the Boards.

(*v*) *Primary Education.*—The total outlay by the union boards on primary education during the year rose from Rs. 3·09 lakhs to Rs. 3·21 lakhs. The union boards in the Burdwan, Presidency and Rajshahi Divisions spent Rs. 86,000, Rs. 70,000, and Rs. 92,000, respectively, under this head against Rs. 80,000, Rs. 62,000 and Rs. 87,000, respectively, in the preceding year; while the union boards in the Chittagong Division spent practically the same amount, viz., Rs. 10,000 and those of the Dacca Division decreased their expenditure under this head from Rs. 69,000 to Rs. 62,000.

Free primary schools continued to be maintained by the Khempur, Sadlichak and Kansat union boards in the district of Maldah. In Pabna, almost all union boards spent the income from pounds on the maintenance of primary schools in their respective jurisdictions, 28 boards spending more than their pound receipts for education. Some union boards also started night schools for adult education. In Bogra, certain union boards maintained their own primary schools while others contributed to the district board primary schools in their respective areas. In Dinajpur, the Boirchuna union board in the Thakurgaon subdivision maintained free primary schools and 14 union boards provided libraries and free reading rooms for the benefit of the ratepayers. The union boards in this district spent the largest amount, viz., Rs. 24,000 for primary education and those of Howrah and Birbhum followed next with an expenditure of Rs. 23,000 each. The Bagnan union board of Howrah maintained 5 Biss type free primary schools and the Bowriah union board erected a building for a girls' school.

(*vi*) *Some features of special interest.*—Two union boards in Rajshahi, 3 in Dinajpur, 3 in Rangpur, 1 in Darjeeling, 2 in Pabna, 15 in Bogra, 1 in Jalpaiguri and 2 in Tippera made adequate arrangements for street lighting. The Kurigram union board in Rangpur has taken up a street watering scheme in co-operation with the district board. The Lalmonirhat union board continued to work a drainage scheme in co-operation with the railway authorities. The Siliguri union board undertook charge of maintenance of the drainage at Siliguri town. The Dighapatia union board in Rajshahi provided a cremation ground and the Durganagar union board in Pabna provided a burial ground. The Sadar Subdivisional Union Board Association in Rajshahi arranged a cattle show at Charghat and a poultry show at Sonakandi. 3 union boards in Dinajpur and 30 in Jalpaiguri maintained stud bulls.

5. **Union Benches and Union Courts.** *Union Benches.* — Union benches have been established under the Bengal Village Self-Government Act of 1919 in suitable unions in all the districts of Bengal except Darjeeling. The total number of benches established and in existence was 1,521 against 1,453 in the previous year. The number of offences reported to these benches was 87,193, showing an increase of 15,433 on that of 1936. The working of the union benches was on the whole satisfactory. They have given relief to some extent to the ordinary courts by disposing of a large number of cases, mostly of a petty nature. The people have begun to appreciate the utility of these benches as justice is available locally at a very low cost and without the expense and trouble of an elaborate legal procedure.

Union Courts.—Union courts have been established under the Bengal Village Self-Government Act, 1919, in suitable unions in all the districts in Bengal except Darjeeling. One union court was established in Midnapore during the year under report, but it did no judicial work. The total number of union courts in existence was 1,336 against 1,338 in the previous year. The number of suits instituted in these courts was 86,722, showing a decrease of 17,953 over that of 1936. Of the total number of applications for disposal during the year under report, under the proviso

to section 88 of the Bengal Village Self-Government Act, 43 cases were either dismissed or not prosecuted. In 131 cases the lower courts' orders were confirmed, in 14 modified, and in 67 reversed and 38 cases were remanded for retrial. The courts are reported to be affording some relief to the Munsifs in the majority of the districts in which they are established and also as being generally popular and useful to poor litigants as redress is available locally at a very low cost.

6. **Relation between the District Boards and the Union Boards.**—The relation between the district boards and the union boards continued to be generally satisfactory.

The total grants made by the district boards under section 45 of the Village Self-Government Act rose from Rs. 3·35 lakhs to Rs. 3·80 lakhs and represented 23 per cent. of the amount raised by the union boards under section 37(*b*) of the Act and 40·64 per cent. of the augmentation grants received by the district boards during the year, from the Provincial Revenues, as compared with 21·8 per cent. and 36·3 per cent. respectively in the preceding year. The district boards in all the five Divisions increased their contribution to the union boards under section 45, the most marked increase occurring in the Presidency Division where the amount rose from Rs. 50,318 to Rs. 67,958. In the Burdwan, Dacca, Chittagong and Rajshahi Divisions, the grants paid by the district boards increased, respectively, from Rs. 81,245 to Rs. 94,158, from Rs. 81,545 to Rs. 82,791, from Rs. 41,540 to Rs. 45,019 and from Rs. 80,621 to Rs. 90,154.

The amount contributed by the district boards under section 33 of the Act for the management of works and institutions transferred by them to the union boards also increased from Rs. 1·84 lakhs to Rs. 2·09 lakhs and the total income of the union boards from pounds which represents a transfer of district board revenue to the union boards rose from Rs. 2·25 lakhs to Rs. 2·32 lakhs during the year under review.

7. **General remarks.**—The year under review was marked by steady progress in the activities of the union boards in different directions as evidenced by the larger expenditure on communications, water-supply, medical relief, education and sanitation, and by a substantial amount of rural reconstruction work with the help of voluntary labour. The union boards appear to have done their best with the resources at their disposal. An all-round progress in matters of public utility and the efficiency in administration attained by these boards, a livelier interest in works of rural reconstruction, an increased sense of civic responsibility and greater interest taken in the union boards by the educated classes are some of the notable features of the year's work.

The amount of rates levied by the union boards under section 37(*b*) of the Act exceeded the previous year's collections by about 8 per cent. The collection of rates was reported to be very satisfactory and the payment of salaries of chaukidars and dafadars was, on the whole, regular.

The relations between the district authorities and the union boards were cordial and sympathetic, while the boards showed satisfactory co-operation with the police in preventing and detecting crimes.

Though some instances of inefficiency resulting from party faction and other causes mostly of a parochial but in some instances of a political nature have been reported, there can be no doubt that the Village Self-Government Act is now being used with increasing advantage for the benefit of the rural areas. In some semi-urban areas, the union boards have been virtually carrying out the functions of small municipalities and the gradual abolition of the local boards is destined to widen the sphere of activities of the union boards and to increase their importance and usefulness as the primary units of local self-government.

Dacca, the 27th July 1939.

First Forecast of the Cotton Crops of Bengal, 1939-40.

(*Note.*—On an average of the five years ending 1937-38, the area under cotton in the territories to which this forecast relates has represented some 0·2 per cent. in Bengal in British India and some 0·1 per cent. in the Bengal States of the total area under cotton in India.)

There are two crops, early and late. The "early" crop is chiefly grown in the Chittagong Hill Tracts, Mymensingh and in the Tripura State and also to a small extent in other districts. The "late" crop is grown in Bankura and Midnapore. As the late crop has not yet been sown, this forecast deals only with the early crop.

Character of the season.—The weather was not favourable at the sowing time owing to drought. In Chittagong Hill Tracts late rainfall delayed sowings and continuous showers thereafter had an adverse effect on the growth of plants. The present condition of the crop is on the whole fairly satisfactory.

Area sown.—The area sown is reported to be 84,305 acres this year as against 87,379 acres in the corresponding forecast of last year. The decrease in area is mainly due to drought at the sowing time and prohibition of jhoom cultivation in the Reserve Forests in the Tripura State.

M. CARBERY,

Director of Agriculture, Bengal.

CALCUTTA, THE 22ND AUGUST 1939.

RESOLUTION—No. 1153P.H.

Read—

The Report of the Director of Public Health, Bengal, for the year 1937.

Vital statistics.—The number of births recorded during the year was 1,707,050 as compared with 1,673,206 in the preceding year—representing an increase of 33,844 and a rate of 34·2 per mille. The deaths in 1937 numbered 1,232,971 as compared with 1,222,724 in the previous year, representing an increase of 10,247 and a rate of 24·7 per mille. The birth-rate was 0·7 above that of the preceding year while the death-rate was 0·2 above that of 1936. The total births exceeded the deaths by 474,079 against an excess of 450,482 in the preceding year.

Although the birth-rate in the year under review was the highest recorded since 1919 it was lower than the birth-rate in the other provinces of India with the exception of Bihar, Assam, the North-West Frontier Province and Sind. It was only in Calcutta that there was an excess of deaths over births, *viz.*, 6·0 per mille, against 5·9 in the preceding year. Conditions in Calcutta with a large number of imported cases and a floating population are, however, different. The highest birth-rate recorded was in the district of Murshidabad (44·1) and the lowest in Calcutta (23·3). The lowest death-rate was recorded in the district of Howrah and the highest (33·7) in the district of Darjeeling, particularly in the Khoribari police-station in the Terai. The rate of natural increase in the province rose to 9·5 per mille against 9·0 in 1936. The death-rate was also higher than that in all other provinces except the Central Provinces, Orissa and the Bombay Presidency.

It must, however, be observed that, generally speaking, the system of collection of vital statistics in this country is by no means as satisfactory as it should be and the element of inaccuracy which exists should be borne in mind in any consideration of the conclusion based on these statistics.

Infantile and maternal mortality.—The infant mortality rate recorded a further increase, being 176·2 against 170·9 in the preceding year. The total number of infantile deaths in 1937 was 300,770 compared to 285,956 in 1936 representing 24·4 per cent. of the total mortality in the province. 55·9 per cent. of the infant mortality was registered among infants under the age of one month as against 56·5

per cent. in the preceding year. The number of still births showed a tendency to rise, yielding a rate of 4·6 per cent. for every 100 live births. In other words, out of every 23 births one was a still birth. On a review of the statistics it appears that deaths from maternity causes have been continually on the increase. The rate of maternal mortality for one thousand live and still births was 10·0—an increase of 0·1 on the figure of 1936.

If the statistics of sickness and morbidity were available the conditions would certainly have been found to be more disappointing. The solution of this very grave problem lies in the substantial development of maternity and child welfare services by a spread of maternity and child welfare centres and clinics inclusive of home visiting.

Government made the usual annual grants to local bodies for the training of indigenous dais and also provided for training of pupil nurses and dais in the State and private hospitals. Suitable recurring grants-in-aid were made to maternal and child welfare centres and for holding welfare weeks. The work of the Red Cross Society was very valuable in this connection and represented as usual the bulk of the maternal and child welfare work hitherto done in the province.

The maternity and child welfare work is mainly a responsibility of the local bodies, and Government trust that the part which can be played by an efficient and comprehensive service for maternity and child welfare in promoting the health and welfare of mothers and young children will be more and more realised by the local bodies in the province.

General epidemiology.—Cholera.—The incidence of cholera showed a very welcome decrease during the year under report. The total number of deaths was 32,710 in 1937, as compared to 76,100 in the preceding year—a decrease of 53·3 per cent. over the figures of 1936 and of 30 per cent. over the average of the previous quinquennium. About 2·6 per cent. of the total deaths in the province was ascribed to this disease. The districts which recorded the highest death-rates were Bakarganj (2·6), Tippera (1·8), Khulna (1·3) and Jessore (1·1). Darjeeling continued to be free from cholera while Birbhum, Bankura, Dinajpur and Jalpaiguri returned the lowest death-rate, *viz.*, 0·1. The rural areas recorded 30,949 deaths, representing a death-rate of 0·7 per mille, against 1·6 per mille in 1936. 1,761 deaths occurred in towns, the rate per mille being 0·5 against 1·1 in the preceding year. The incidence of mortality from this disease was higher than in any other province except Orissa and Assam.

Cholera-preventive measures.—The usual preventive measures were taken. Anti-cholera vaccine was freely used although the quantity of vaccine and the number of inoculations showed a remarkable decline apparently owing to the fact that the incidence of cholera decreased in the year. A handicap of the Public Health Department has been that the masses do not take to inoculation until an epidemic is on them. Other preventive measures included disinfection of the sources of water-supply and of infected dwellings, extensive public health propaganda through the rural public health units and the Divisional publicity staff, and promulgation of temporary regulations under the Epidemic Diseases Act which gave powers for securing summary abatement of causes of infection.

Small-pox.—The mortality from this infectious disease showed a marked decline, the total number of deaths being 27,944 against 46,267 or 33·3 per cent. less than the number of deaths in 1936. It represented 2·3 per cent. of the total provincial mortality, but the rate was still the highest among all provinces in British India. Compared with the average previous quinquennium the increase amounted to 100 per cent. The Director of Public Health has observed that the lower prevalence of small-pox in 1937 along with the short increase in 1936 has rather belied the cyclic trend of the disease.

Of the total number of deaths from small-pox, 2,414 occurred amongst infants below one year of age and 7,452 amongst children between one and ten years of age. The district of Chittagong was the worst sufferer with a death-rate of 3·17 per mille, Jalpaiguri with ·002 per mille being the least affected. Of the aggregate mortality in towns, Calcutta was responsible for 403 or 30·5 per cent. in 1937 against 44·2 per cent. in the preceding year.

The number of persons vaccinated during the year under review was 8,595,618 against 9,137,320 in 1936. Here again the decrease in the number vaccinated and re-vaccinated indicated that the public were more or less apathetic to vaccination except in times of actual epidemics.

The average cost of each successful vaccination was one anna and eight and a half pies, *i.e.*, 1½ pies more than that of the previous year. The average cost of manufacture of vaccine lymphs per dose of half a grain was thus reduced from ·94 in 1936 to ·5 in the year under review.

Government would again impress upon the Corporation of Calcutta and the other local authorities in the province the necessity of a vaccination campaign according to a definite programme. The number of cases is so large and the recording agencies are so inadequate in this country that it is not possible to have any idea of the vaccinal condition of the cases, which would have greatly assisted the Public Health authorities in setting up effective measures of control. The control machinery is also liable to great improvement.

Fevers—Malaria and kala-azar.—Mortality from fevers rose from 716,142 in 1936 to 775,586 in 1937, the death-date being 15·5 per mille against 14·3 per mille in the preceding year, an increase of 9·1 per cent. over the last quinquennial average.

Malaria.—There were 372,992 deaths registered during the year, an increase of 35,345 over the figures of the previous year with a death-rate of 7·5 per mille against 6·8 per mille in 1936. Malaria accounted for 48·1 per cent. of the total fever mortality and 30·2 per cent. of the total provincial deaths. The largest number of deaths was as usual recorded in the district of Rajshahi with a rate of 18·8 per mille against 18·7 per mille in 1936. Jessore came second with 13·8 per mille against 13·9 in 1936. Fever indices, however, indicated as in previous year that the district of Nadia had the largest incidence. Except in three districts there was an increase of malaria in the remaining districts of the province.

Kala-azar.—The death-rate from Kala-azar continued to be the same as in the preceding year, *viz.*, ·4 per mille, with an increase of 66 deaths over the figures of the preceding year. Compared to the figures of 1934 and 1935 the rate has been showing a slow but gradual increase. The number of new kala-azar cases admitted into the various

hospitals for treatment however fell from 137,791 in 1936 to 102,777. The decrease was most noticeable in Rangpur, Chittagong, Bakarganj and Noakhali. The rate has shown a slight decrease in the urban areas and a small increase (·01 per cent.) in the rural areas.

Special anti-malarial measures.—The rural mass treatment scheme with cinchona and plasmochin which was started in 1933 in the Memari police-station, in the district of Burdwan, was concluded in March 1937. The details of the scheme have been dwelt upon the previous reports and the Public Health Department have separately published monographs on the results of the experiment. The results of the experiment as far as incidence and average fever index and spleen index are concerned have been satisfactory both in the experimental and controlled areas. The expenditure involved, however, has been rather disproportionately heavy, especially considering that other anti-malarial measures and works for effective control of malaria cannot possibly be dispensed with. The five years' scheme ended in April 1937. Such isolated schemes appear no longer to be necessary as Government have largely increased the grant for distribution of quinine with a view to popularising its use and also with the object of reaching the large number of cases which do not come to the hospitals and dispensaries for treatment.

A comprehensive malaria survey has started in November 1937 in typical areas in different parts of the province. The survey is expected to be completed within another year and when completed will yield valuable data for the purposes of initiating control schemes.

The survey and control measures in connection with the campaign were carried out satisfactorily in the environs of Calcutta, in the Budge Budge area and in the suburban railway areas with the full co-operation of all the parties concerned.

Respiratory diseases.—There were 96,986 deaths due to respiratory diseases in 1937, the death-rate being 1·94 per mille against 1·90 per mille in the preceding year. This rate exceeded in all districts, the average rate of the preceding 10 years, 14 districts showing an increase over the figures of 1936. As usual, Calcutta recorded the highest death-rate (9·5 per mille), followed by Jalpaiguri (5·8), Darjeeling (4·2), Howrah (4·1) and Hooghly (4·0). Malda continued to record the lowest death-rate (0·5 per mille).

Pneumonia accounted for 48,927 deaths, compared to 49,155 in 1936. The mortality from this disease was gradually on the decrease since 1923, and this decrease, therefore, however small, is welcome. The highest death-rate (4·4) was recorded in the district of Jalpaiguri and the lowest in Malda.

Pulmonary tuberculosis (pthisis) accounted for 14,668 deaths against 15,266 in the previous year or 0·29 per mille against 0·31 per mille in the preceding year. There was thus a decrease of 598 deaths (6·5 per cent. in the death-rate) from this disease in the province. The highest death-rate (3·2) was recorded in Darjeeling followed by Kurseong (3·0) and Calcutta (2·7) per mille.

Other diseases.—Deaths registered as due to enteric fever were 8,978 as compared with 8,369 in the preceding year. Influenza, cerebrospinal fever and typhus fever accounted for 2,422, 938 and 2,814 deaths, respectively, against 2,502, 910 and 1,551 in 1936. Dysentery and diarrhoea were responsible for 56,800 deaths with a

death-rate of 1·1 per mille against 57,212 with the same death-rate in 1936. These two diseases were also responsible for 4·6 per cent. of the total provincial mortality. The combined death-rate was highest in Darjeeling (3·5) and Howrah (3·2).

Leprosy.—There were 934 deaths registered as due to leprosy against 494 in the preceding year. Of this number the rural areas returned 883·51 deaths occurred in all municipal towns inclusive of 15 in Calcutta. Although actual figures regarding the prevalence and incidence of this disease are not available, the number of deaths appears to give reason for anxiety. The Director of Public Health has given a brief account of anti-leprosy work which was carried on in districts and towns mainly under the auspices and guidance of the British Empire Leprosy Relief Association.

Epidemic dropsy.—There were some sporadic outbreaks of epidemic dropsy in several places specially in municipal towns. An investigation was made and it is still continuing regarding the etiology of epidemic dropsy in the Tropical School of Medicine and in the All India Institute of Hygiene, Calcutta. The results of research showed that epidemic dropsy was caused by ingestion of a poisonous substance conveyed through the agency of mustard oil, the nature and origin of which is not yet fully known. A circular was issued to all Civil Surgeons by the Surgeon-General bringing to their notice these results of research so that they might be utilised on occasions of future outbreaks of the disease and the Civil Surgeons were also requested to send samples of suspected mustard oil in order to assist further investigation. After the close of the year under review the Director of Public Health also circularised to all Chairmen of District Boards and Municipalities, with the approval of Local Government, for directing the local health staff to be on the alert to trace outbreaks of this disease to particular brands or consignments of mustard oil and to send samples of oil procured from affected families for further research at the All India Institute of Hygiene, vendors of oil being informed at the same time to import oil from other sources of manufacture.

Prevention of blindness.—The Association for Prevention of Blindness in Bengal has been doing excellent work by way of propaganda and prevention. They maintain two travelling eye dispensaries, one being financed from His Late Majestey's Silver Jubilee Fund. The work is greatly appreciated by the public specially as outbreaks of epidemic dropsy have brought in its wake a large number of cases of diseases of the eye. Government have under consideration a proposal to come to the financial assistance of this Association so that more travelling eye dispensaries which are badly needed can be provided.

Fairs and festivals.—The Public Health Department and the local authorities co-operated with great success in undertaking medical and sanitary arrangements in the two largest melas in the province. There was only one case of cholera in the Gangasagar Mela and two in Nangalbund, one of the latter proving fatal.

In regard to other melas and fairs spread all over the province the local authorities took adequate action under the provisions of the law in securing effective sanitary, medical and veterinary arrangements.

Sanitation and water-supply.—Rupees 49,55,394 or 39·4 per cent. of the total receipts inclusive of the opening balance was spent by municipal bodies in Bengal on sanitary works during the year under

review, an increase of 2·4 per cent. compared with the expenditure of the preceding year. The average expenditure per head of the municipal population was Rs. 2-1-8 against Rs. 2-0-2 in 1936-37. Of the total municipal expenditure on sanitation Rs. 24,38,844 was spent on conservancy, Rs. 11,87,191 on water-supply and Rs. 3,68,388 on drainage. The district boards in the rural areas maintained their expenditure on sanitation and water-supply at the same level as in the previous year. The union boards spent Rs. 47,65,634 in carrying out the various works of public utility contemplated by the Village Self-Government Act. A sum of Rs. 8,47,949 was devoted to water-supply, Rs. 86,652 to drainage and Rs. 76,204 to conservancy.

School hygiene.—The Director of Public Health has furnished a detailed account of the school health services now in existence in Calcutta and in municipal and rural areas and has given details of the results of the very limited medical inspection of school students in these areas. The school health services are more or less in their infancy and Government have the matter of development of these services under their anxious consideration.

Health propaganda.—The publicity staff carried out as usual health publicity work in the province. Cinema shows, magic lantern demonstrations, lectures, exhibitions and health weeks were the means employed to impart health education to the masses. Ten touring cinema parties went round the province holding cinema demonstrations and delivering lectures. Health films formed the largest part of the propaganda work and were greatly appreciated. Two new health films on modern lines were prepared during the year. The Government exhibition van visited 6 districts and held 110 demonstrations. This van proved to be very popular and effective.

Miscellaneous.—The activities of the Public Health Department were maintained at a normal level in spite of the handicap of finances and the lack of health consciousness among the general public. Besides finding a moiety of the charge on account of Health Officers employed by the local bodies, a sum of Rs. 12,55,500 was spent by Government in assisting district boards to maintain rural public health organization units, the assistance being limited to a maximum of Rs. 2,000 per thana unit. In addition to a sum of Rs. 2,05,097 allotted from the Government of India's subvention for rural uplift an increased grant of Rs. 3,50,000 was allotted from the provincial revenues for the improvement of the sources of water-supply for drinking purposes in the rural areas. Other subsidies to local bodies included Rs. 1 lakh (against Rs. 70,000) for combating kala-azar, Rs. 45,000 for free vaccination and Rs. 2,80,000 for anti-malarial measures and for the free supply of quinine. A grant of Rs. 10,000 was made to the Tuberculosis Association and the Bengal Branch of British Empire Leprosy Relief Association received a subsidy of Rs. 5,500 for carrying on anti-leprosy propaganda. The contribution of Rs. 2,700 sanctioned last year for augmenting local resources towards the establishment of leprosy clinics in the rural areas of Bankura was continued.

The Public Health Department continued to render prompt and effective assistance to the local authorities on the occasion of serious outbreaks of epidemic diseases by sending extra staff, drugs and disinfectants to supplement their resources.

General Remarks.—With the inauguration of the new constitution on 1st April 1937, public attention is being increasingly focussed on the Public Health Department which is responsible for health functions.

The Public Health services in Bengal and in India are, however, far form developed and the problems of public health are many and varied. The first line of attack under the present conditions would, apart from control of maternity and child welfare services, lie in organizing national attacks on the mass of preventible diseases which account for the heavy mortality and morbidity that now prevail with the co-operation and good-will of the local bodies and the general public, while at the same time taking adequate action in educating the people in personal, environmental and communal hygiene. The task is complex and protracted. Government have already undertaken the preparation of schemes for adequate control of the principal preventible epidemic diseases in the province and portions of these schemes have since the close of the year been put into operation. With a view to developing the existing maternity and child welfare services Government have since the close of the year under review created the post of a Lady Superintendent for maternity and child welfare work with the necessary staff. For the purpose of encouraging the establishment of maternity and child welfare centres on approved lines, Government have also framed a scheme of suitable grants-in-aid to be made to local bodies and recognised voluntary associations towards the establishment of maternity and child welfare centres with a maternity ward attached to the centre wherever this is possible. Government invite the co-operation of all local bodies, general practitioners and the public in grappling with this problem of maternity and child mortality.

As regards the problem of control of cholera and other water-borne diseases, prevention of these diseases is bound up with the provision of adequate and safe sources of water-supply. Government are determined to reach a solution of this grave problem of rural water-supply in accordance with a comprehensive programme. Large grants are already being made by Government to local thana, subdivisional and district water-supply committees which have been set up to direct the proper utilization of these grants in a methodical manner.

A post of Superintendent of Vital Statistics and Vaccination has since the close of the year under review been created with the object of ensuring better records of vital statistics and more efficient supervision over vaccination against small-pox.

As regards the measures for the control of malaria, the present policy of distribution of contributory anti-malarial grants through the district boards to union boards and village anti-malarial societies on small local anti-malarial works has been found to be inadequate and ineffective and a change in the policy is under the contemplation of Government. In order to initiate more effective measures of control in the shape of large anti-malarial works of a more or less permanent nature it is proposed that adequate funds should be made available for expenditure by district boards on a contributory basis on comprehensive anti-malarial measures such as flushing schemes, irrigation schemes, anti-larval measures, on lines approved by the Public Health Department. Government have also decided to create the post of an Anti-malarial Engineer with necessary staff with a view to assisting local bodies in drawing up and executing schmes of an engineering type.

A comprehensive scheme for the control of tuberculosis has been framed since the close of the year under review and is under the consideration of Government. In pursuance of the above item provision has been made for the training of medical and health officers in modern diagnosis and treatment of tuberculosis and also for contributions to Sadar Hospitals towards better treatment and nourishment of tuberculosis patients. Government have also decided to establish a climatic sanatorium at a suitable place in Bengal as early as possible. The question of the selection of a suitable site for the sanatorium is now receiving consideration.

A comprehensive anti-leprosy scheme has also been framed since the close of the year under review and active steps have been taken to put the essential parts of the scheme into force with a view to controlling this disease.

Government trust that in these matters they will receive unstinted help and support from the local bodies, voluntary services of the general public in their efforts for improvement of national health so that the problems of diseases may be effectually tackled and a decided improvement of the national health may materialise within a measurable distance of time.

Personal.—Lt.-Col. Chatterjee, I.M.S., held the office of Director of Public Health throughout the year. Government desire to place on record an appreciation of the services of Col. Chatterjee in efficiently administering the department during the year under review.

THE INLAND STEAM-VESSELS (BENGAL AMENDMENT) BILL, 1939.

A

BILL

to amend the Inland Steam-vessels Act, 1917, in its application to Bengal.

WHEREAS it is expedient to amend the Inland Steam-vessels Act, 1917, in its application to Bengal in the manner hereinafter appearing ; I of 1917.

It is hereby enacted as follows :—

Short title and commencement.

1. (*1*) This Act may be called the Inland Steam-vessels (Bengal Amendment) Act, 1939.

(*2*) It shall come into force on such date as the Provincial Government may, by notification in the *Official Gazette*, appoint.

Application of Act.

2. The Inland Steam-vessels Act, 1917, shall, in its application to Bengal, be amended in the manner hereinafter provided.

Insertion of new section 44A in Act I of 1917.

3. After section 44 of the Inland Steam-vessels Act, 1917, the following section shall be inserted, namely :—

"44A. A Court making an investigation under this Chapter may make such order as it thinks fit respecting the costs of the investigation or any part thereof and any money payable as costs by virtue of an order made under this section shall be recoverable under the provisions of the Code of Criminal Procedure, 1898, as if it were a fine."

Power of Court to award costs of investigation under this Chapter.

Act V of 1898.

STATEMENT OF OBJECTS AND REASONS.

Chapter IV of the Inland Steam-vessels Act, 1917 (I of 1917) authorises the Provincial Government to appoint special Courts of investigation for the investigation of casualties to inland steam or motor vessels plying in the rivers of Bengal. There is no provision in the Act enabling the Provincial Government to levy fees or recover costs from the parties concerned. In the absence of any other provision Government have to bear all the expenses incidental to these Courts of investigation. The provisions of this Act are modelled on the lines of the Indian Merchant Shipping Act, 1923 (XXI of 1923), the language of which has been taken more or less verbatim from the (English) Merchant Shipping Act, 1894, but there is nothing in the Indian Act to correspond to section 466(*8*) of the English Act which provides that the Court may make such order as the Court thinks fit respecting the costs of the investigation or any part thereof. The present Bill is intended to bring the Inland Steam-vessels Act, 1917, into line with the English Act in this respect.

GOVERNMENT OF INDIA.

The following Bill* was introduced in the Legislative Assembly on the 18th February, 1939 :—

L. A. BILL No. 20 OF 1939.

A Bill further to amend the Indian Medical Council Act, 1933.

WHEREAS it is expedient further to amend the Indian Medical Council Act, 1933 ; It is hereby enacted as follows :— XXVII of 1933.

Short title, extent and commencement.

1. (*1*) This Act may be called the Indian Medical Council (Amendment) Act of 193 .

(*2*) It extends to the whole of the British India.

(*3*) It shall come into force on such date as the Governor General in Council may, by notification in the Gazette of India, appoint.

3. In sub-section (*1*) of section 3 of the said Act,—

(*i*) in clause (*c*), the words " who possess recognised medical qualifications or medical qualifications granted by a British Indian University " shall be omitted ; and

(*ii*) in clause (*d*), for the word " three " the word " six " shall be substituted and after the words " Governor General in Council " the words " of whom three shall be licentiates having been elected by the All-India Medical Licentiates Association " shall be added.

*The Governor General has been pleased to accord the previous sanction required by section 119 (1) of the Government of India Act, 1935.

Amendment of the First Schedule to Act XXVII of 1933.

4. In the First Schedule to the said Act, the following shall be added at the end, namely :—

"Medical schools recognised by Provincial Governments.	Medical diploma recognised by the Provincial Governments and the Provincial Medical Councils.	L. M. P. L. C. P. S. L. M. F. L. S. M. F. M. S. M. F. M. P L. M. C. P. S."

STATEMENT OF OBJECTS AND REASONS.

Ever since the Indian Medical Council Act of 1933 came into force, the discontent among that large and important class of medical men known as L. M. Ps. had become deeper and deeper. This state of affairs cannot be allowed to continue long.

(2) It is but right that the All-India Medical Council should be seized with the problem of setting right the medical standard in this country and unless this Medical Council for India exercises its central control and authority over medical education in medical schools, as it does at present with that of the University Medical Colleges, the Provincial Governments who are in sole charge of medical schools education are not likely in any way in near future to bestow the desired and much needed attention.

(3) It is unimaginable that a vast body of medical men who are entitled to practise by law and statute of the Provincial Governments and who are recognised by the Provincial Medical Councils as legally qualified medical practitioners should be denied their legitimate right of being included in the All-India Medical Council.

(4) It is patent that if the Medical Council for India has to justify its title it must include within its scope the medical licentiates who form a prepondering majority of medical men with responsible official and public situations.

(5) It may be mentioned the original intention, as was proposed in the draft Bills previous to the passing of the Act in this final form, was to constitute a Medical Council in India in order to establish a uniform standard of qualifications in Medicine for all provinces, but that this laudable proposal was given up at the selfish behest of the General Medical Council.

It is therefore now proposed by the above amending Bill to make the Indian Medical Council Act No. XXVII of 1933 more comprehensive and equitable and make it acceptable to the Indian medical profession.
